

Statistical Abstract

New Series

No 28

INDIA 1985

**CENTRAL STATISTICAL ORGANISATION
DEPARTMENT OF STATISTICS
MINISTRY OF PLANNING
GOVERNMENT OF INDIA**

Based upon Survey of India map with the permission of the Surveyor General of India.

Jain Prakash/ CSO.No.153/6-87

The boundary of Meghalaya shown on this map is as interpreted from the North-Eastern Areas (Reorganisation) Act, 1971, but has yet to be verified.

© Government of India copyright 1987

The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

The administrative headquarters of Chandigarh, Haryana and Punjab are at Chandigarh.

Responsibility for the correctness of the internal details rests with the publisher.

PREFACE

The current issue, which is the 28th in the new series of the Statistical Abstract incorporates the latest available data upto March, 1985 under important heads of economic and social development. It gives national aggregates generally for 1950-51, 1955-56, 1960-61, 1965-66, 1970-71, 1975-76, 1980-81 and for each subsequent year upto 1984-85. State-wise information is presented for the latest year.

2. This publication has been printed for the first time by the modern technique of computer aided photo litho process. Effectiveness of the method is both with regard to enabling elegant presentation of tables and reducing the time-lag in printing. The latter aspect is expected to be reflected in future issues of our publications as a result of the increased tempo of activity gained in this first experience.

3. A review of the subject coverage of Statistical Abstract is made regularly with a view to introducing improvements in the light of the latest developments and the availability of fresh data. Changes effected in the tables in the current issue, as compared with the previous issue, are given at page (ix).

4. The Statistical Abstract serves as an important source material for authentic data on different sectors of the Indian economy. The source agencies are indicated in the form of foot note under each table. The relevant publications of these agencies furnish more detailed information on the subjects.

5. The continued and generous co-operation given by various offices of the Central Government, State Governments and Public undertakings, in making available the required data for the Abstract is gratefully acknowledged. Suggestions for improvement received from the users are also acknowledged with gratitude.

M.G. Sardana
Director General

CENTRAL STATISTICAL ORGANISATION

SELECTED ECONOMIC INDICATORS

○ QUICK ESTIMATES

● DATA AGAINST THE YEAR 1970-71 INDICATES DATA FOR THE YEAR 1971 AND SO ON

* DATA AGAINST THE YEAR 1972-73 RELATE TO CALENDAR YEAR 1972 AND AGAINST 1973-74 RELATE TO CALENDAR YEAR 1973

◇ PROVISIONAL

CONTENTS

1. AREA AND POPULATION		PAGE
Table		
1	Area and population by states	3
2	Area and population by districts	4-14
3	Number and population of towns and villages (by classes)	15-16
4	Population of cities	17-22
5	Decennial growth of population (1901-81)	23-25
6	Density-wise distribution of population and area	26
7	Ranks of states and union territories by population and area	27
8	Economic classification of the population	28-30
9	Expectation of life	31
10	Population by major religious communities	32-33
11	Population of scheduled castes and scheduled tribes	34-35
12	Estimated mid-year population	36-37
2. RAINFALL		
13	Monthly and annual rainfall-1984 (by meteorological sub-divisions).	39-41
14	Annual rainfall-by meteorological sub-divisions	42
3. AGRICULTURE		
15	Pattern of land utilisation	46-47
16	Area under principal crops	48-50
17	Production of principal crops	51-53
18	Average yield of principal crops	54-56
19	Index number of Agricultural production	57
20	Agricultural implements and machinery	58
4. LIVESTOCK AND FISHERIES		
21	Livestock and poultry	60
22	Cattle and buffaloes used for work only	61
23	Production of milk	62
24	Production of raw wool	63
25	Fish catch and landings-by group of species	64
26	Distribution of fish catch	64
5. FOREST		
27	Classification of total forest area	66-67
28	Outturn of forest produce	68-69
29	Revenue from and expenditure on forest	70
30	Protection of forest	71
31	Progress of forest regeneration and afforestation	72
6. SERICULTURE		
32	Production of raw silk and silk yarn	74
32A	Export of Silk goods and silk waste	75
7. IRRIGATION		
33	Net area under irrigation-by sources.	77
34	Gross area under irrigation-by crops	78
8. MINING		
35	Number of Mines in India.	80-86
36	Production of minerals and ores	87-95
37	Index of mineral production (quantum index)	96-97
9. INDUSTRY		
38	Annual survey of industries-Census Sector, by states	101-103
39	Annual survey of industries-Census Sector, selected characteristics by industry	104-110
40	Mill production of cotton yarn	111
41	Production of cotton cloth-by categories	112-113

CONTENTS-Contd.

9. INDUSTRY(Contd.)

Table		PAGE
42	Production of man-made fibre fabrics	114
43	Production of selected industries	115-126
44	Index numbers of industrial production	127-131

10. POWER

45	Electricity-Installed capacity, generation and consumption	133-134
46	Electricity sold to ultimate consumers	135-136
47	Number of towns and villages electrified in India.	137

11. BANKS

48	Liabilities and assets of the Reserve Bank of India	140
49	Liabilities and assets of different classes of banks	141-142
50	Cheque clearances-by centres	143
51	Cash deposit ratio-by class of banks	144
52	Industrial Finance Corporation	144
53	State Financial Corporations	145
54	Industrial Development Bank of India	146
55	Industrial Credit and Investment Corporation of India	146

12. CO-OPERATIVE SOCIETIES

56	Number and membership-all types	148
57	Number, membership and financial position of state co-operative banks	149
58	Number, membership and financial position of central co-operative banks.	150
59	Number, membership and financial position of primary credit societies	151-153
60	Number, membership and financial position of grain banks	154
61	Membership and financial position of central land development banks	155
62	Number, membership and financial position of primary land development banks	156
63	Number, membership and financial position of primary non credit societies	157

13. JOINT STOCK COMPANIES

64	Joint stock companies at work	159-164
65	Joint stock companies newly registered	165-169
66	Joint stock companies liquidated	170-174

14. INSURANCE

67	Summary of life insurance revenue account of the Life Insurance Corporation of India	176
68	Liabilities and assets of the Life Insurance Corporation of India.	177-178
69	New life insurance business by Indian Insurers and total life insurance business in force	179
70	Post-Office Life Insurance Fund Account	180
71	Postal life insurance policies issued	181
72	Particulars relating to premium derived from fire,marine and miscellaneous insurance of Indian Insurers	182

15. TRADE

73	Foreign trade-Value of total trade in merchandise and treasure	189
74&74A	-By sections,divisions and groups	190-228
75	-Value of imports of merchandise into India by principal countries of consignment	227-229
76	-Value of exports of merchandise (Indian produce and manufactures) from India by principal countries of destination	230-232
77	-Value of re-exports of merchandise from India by principal countries of destination	233-234
78	-Overall balance of trade	235
79A,B	-Summary of the value of merchandise trade by currency area and by economic regions (old and revised classification)	235-237
80	-Quantity and value of imports of principal articles of foreign merchandise	238-239
81	-Quantity and value of exports of principal articles of Indian produce and manufactures	240-241
82	-Index numbers of imports of unit values and of quantum of imports	242
83	-Index numbers of exports of unit values and of quantum of exports	243

CONTENTS-Contd.

able		PAGE
84	Coasting trade-Total value of coasting trade	244
85	Coasting trade-Total value of merchandise (Indian and Foreign) and treasure imported into and exported from the several maritime blocks (revised classification) of India	245-250
86	Inland trade-Movement of certain principal articles by rail and river between the states and chief port towns	251-254
	16. BALANCE OF PAYMENTS	
87	Overall balance of payments	257-259
88	Regional balance of payments-current account	260-265
89	External assistance-authorisation and utilization	266-269
	17. RAILWAYS	
90	Railway statistics-summary	272-275
91	Passengers and goods carried and earnings derived therefrom by railways	276

CHAPTER 1

AREA AND POPULATION

This section includes abstract of available data on area and population of the Indian Union based on the Census of population 1981.

Table 1

This table contains data on area, total population and its classification according to sex and urban and rural population. Urban area is defined as follows:

- (a) All statutory towns i.e. all places with a municipality, corporation or cantonment or notified town area etc.
- (b) All other places which satisfy the following criteria :
 - (i) a minimum population of 5,000.
 - (ii) at least 75 per cent of male working population engaged in non-agricultural (and allied) activity.
 - (iii) a density of population of at least 400 per sq. km. (or 1,000 per sq. mile).

In the case of Jammu and Kashmir, the population figures exclude information on area under unlawful occupation of Pakistan and China where Census could not be taken.

Table 2

This table shows the district-wise break-up of area (provisional) and population of States and Union Territories according to 1981 census. This also gives district-wise details of population regarding male, female, total and percentage increase of population since 1971 and proportion of rural/urban population to 1,000 total population.

Table 3

This table shows the number and population of towns in India by classes (I-VI). Towns are classified according to population as below :

- Class I-Over one lakh
- Class II-50,000 to 99,999
- Class III-20,000 to 49,999
- Class IV-10,000 to 19,999
- Class V-5,000 to 9,999
- Class VI-Under 5,000.

Table 4

This table shows the sex-wise population of cities (with population over one lakh) in each State in 1981 along with increase over the 1971 Census.

Table 5

This table gives State-wise population enumerated in nine censuses from 1901 to 1981 along with the decennial percentage variations.

Table 6

This table gives State-wise percentage distribution of population and area according to population density

Table 7

This table shows the rankings of the States and Union Territories in order of population and area.

Table 8

This table presents the economic classification of the population.

Table 9

Expectation of male and female lives at birth and at ages 10,20,30,40,50 and 60 years in the census years 1881-1980 for all India is shown in the Table.

Table 10

The table shows the population according to numerically important religious communities of- India-Hindus,Muslims,Christians,Sikhs,Buddhists, and Jains with the percentage increase during 1961-71.Other religions have been collectively presented under 'others'.

Table 11

The figures represent the population and percentage distribution of members of Scheduled Castes and Scheduled Tribes in States and Union Territories.

Table 12

This table shows State-wise provisional estimated mid-year population for the years 1961, 1966 and 1971 and 1974 to 1980.The estimates have been made by the Expert Committee on Population Projections with the Registrar General, India, as Chairman. These estimates have been made after taking into account the 1971 Census count of population.

सत्यमेव जयते

- (1) The figures are provisional and are as on 31st March, 1982. These are computed by the Surveyor General of India and cleared by the Central Statistical Organisation.
- (2) The population figures exclude population of areas under unlawful occupation of Pakistan and China, where census could not be taken.
- (3) Includes projected population of Assam where census could not be held owing to disturbed conditions prevailing there.
- (4) Projected population for 1981.
- (a) Include area under unlawful occupation of Pakistan and China.

Pondicherry	15.99

- (1) Excludes Assam where census could not be held owing to disturbed conditions prevailing there at the time of 1981 census.
- (2) Excludes the population of areas under unlawful occupation of Pakistan and China where census could not be taken.
- (a) This figure would appear to include high returns relating to certain communities with nomenclatures similar to those included in the list of scheduled tribes consequent to removal of area restriction.

Note:- (1) No castes were scheduled by the President of India for Nagaland, A. & N. Island and Lakshadweep.

(2) No tribes were scheduled by the President of India for Haryana, Jammu and Kashmir, Punjab, Chandigarh Delhi and Pondicherry.

(3) 1981 figures of scheduled castes and scheduled tribes are the enumerated figures based on Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 and other relevant Acts and Orders.

- (1) Estimates are made by the office of the Registrar General, India. These are provisional and likely to be changed in the light of recommendations of the Expert Committee on population projections.
(2) Figures of Assam include Mizoram before, 1971.

Note:- The aggregate over the States and Union Territories will not exactly tally with India, which has been estimated direct. The differences, however, are very minor.

(1) Estimates are made by the Office of the Registrar General, India. These are provisional and likely to be changed in the light of the recommendations of the Expert Committee on population projections.

(2) Figures for Assam include Mizoram, before 1971.

Notes: (I) The above estimates are provisional.

(II) The aggregate over the States and Union Territories will not exactly tally with India which has been estimated direct. The differences, however, are very minor.

CHAPTER 2

RAINFALL

Rainfall is recorded by the Indian Meteorological Department at 541 surface and 610 Hydromet observatories. In addition there are about 4,400 rain recording stations maintained by the various State Government who publish the data emanating therefrom.

Daily rainfall is recorded at 0830 hours everyday throughout the country. The amount is the total rainfall for the preceding 24 hours ending at 0830 hours of the date of measurement.

This section gives the data of normal and actual rainfall with reference to meteorological sub-divisions mentioned therein. The rainfall figures appended with the letter 'a' in parenthesis are based on the data recorded at the observatory stations, while the other figures are based on the available data recorded at both departmental observatories and state rain gauge stations. The sub-divisional means are provisionally worked out on the basis of observatory data only, since there is a considerable time lag in the receipt of the rainfall data from the states.

Table 13 gives sub-divisionwise actual and normal monthly rainfall.

Tables 14 give, at sub-divisional level, actual annual rainfall data for the individual years.

CHAPTER 3

AGRICULTURE

This section contains tables regarding pattern of land utilisation, area, production and yield per hectare of principal crops in India. The section also contains a table each on index numbers of agricultural production and agricultural implements and machinery. The source for these data is the Ministry of Agriculture. Primary data are, however, collected by the Agriculture Ministry from individual State authorities.

Table 15-

REPORTED AREA

This table presents data regarding area classified by categories of land utilisation which are explained below :

Reporting Area is the area for which information on land use by classification of area is available. Generally land utilisation figures are based on the returns prepared by the village staff for revenue purposes.

Area under 'forests', includes area actually forested or lands classed or administered as forests under any legal enactment dealing with forests whether State-owned or private and whether wooded or maintained as potential forest land. The area of crops raised in the forests and grazing lands of areas open for grazing within the forests are also included under the forest area.

Figures of forest area shown in the table are taken from 'Indian Agricultural Statistics', brought out annually by the Directorate of Economics and Statistics, Ministry of Agriculture. The figures in this table do not tally with corresponding figures of area given in forest section for the following reasons:-

(a) Differences in periods covered : The period of preparation of two sets of figures differ. These figures based on Agricultural Statistics Returns generally relate to the Agricultural Year (July-June) where as the forest area presented in this table relates to the financial Year (April-year March).

(b) Diversity in the meaning attached to the term "Area Under Forests" in the Indian Forests Statistics Returns, the whole area including non-wooded area under the control of Forests Deptt., is taken as area under forest while in Agricultural Statistics Returns, it is classified according to its utilisation.

(c) Differences in coverage : Forest Deptt. reports are expected to cover all forest areas in the States but Agricultural Statistics relate only to the reporting areas.

Area not available for cultivation is the land which is absolutely barren or uncultivable or covered by buildings, water, roads, railways, mountains, deserts or otherwise appropriated for non-agricultural purposes.

Other uncultivated land excluding current fallows, include the following categories :-

(i) Permanent pastures and other grazing lands which cover all grazing lands whether they are permanent pastures and meadows or not and village common grazing lands.

(ii) Land under miscellaneous trees crops and groves not included in the net area sown which includes all cultivable land, not included under area sown but put to some agricultural use. Land under casuarina trees and others groves for fuel, etc. which are not included under orchards, are also included in this category.

(iii) Culturable Waste land which includes all lands available for cultivation but not taken up for cultivation or taken up for cultivation once but not cultivated during the year and the last five years or more in succession.

Fallow land implies all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. "Fallow land" has been split up into (i) "current fallows land"; and (ii) "other fallow land". Lands laying fallow for a period of one year, are included under "current fallows", those lying fallow for more than one year but less than five years, are included under "other fallow land" while those fallow beyond a period of five years, are included under "culturable wastes" or, under miscellaneous tree crops and groves" (not included under net area sown) as the case may be.

Net area sown, area sown more than once and total cropped area:- In computing the aggregate net area-sown, area sown more than once has been counted only once. However, while calculating the total cropped area, if different crops are raised in a year on a given land, the same area is accounted more than once.

Tables 16 and 17-

Figures are given for area and yield of 31 principal crops in tables 16 and 17 respectively. Regular all-India forecasts are issued in regard to most of these crops viz., all food grains, oilseeds, fibres, potatoes, sugarcane, ginger, blackpepper, chillies and tobacco. The estimates of area and production of coffee, tea and rubber are based on special returns received from the State Governments in connection with the all-India publications on these crops. For some recent years, however, in the absence of necessary data, from the State Govts., figures as available from Coffee Board, Tea Board & Rubber Board have been provisionally adopted.

The data relate to crop year ending June unless otherwise stated. Figures for the latest year are the final forecasts while those for the years 1977-78 are partially revised estimates as issued from time to time along with final forecasts. Figures for earlier years are fully revised estimates.

The variation in coverage and changes in methods of estimation have introduced some incomparability over time. The changes in coverage (area) since 1949-50 do not substantially affect comparability but improvements in the methods of estimating yield rates and total production were introduced mainly after 1949-50.

Table 18-

This table presents data regarding average yields of principal crops in quintals per hectare. Average yields per hectare of principal crops have been obtained by dividing the total production by the corresponding total area under each crop. All India and State average yield per hectare has generally been calculated on the basis of area and production figures rounded up to hundreds in the case of forecast crops; in the case of tea, coffee, rubber and minor crops average yield has been calculated on the basis of area and production figures upto the unit place. In the case of coffee yields per hectare relate to plucked area and in the case of rubber to tapped area.

Table 19-

This table shows the index of agricultural production in India on base : Crop years-triennium ending 1969-70=100. The index covers 42 crops divided into two main groups and 8 sub-groups. Weights have been assigned to different crop indices in proportion to the total value of production of each crop during the base periods. The output has been evaluated at annual harvest prices prevailing during the year. In a few cases where reliable harvest prices were not available, average wholesale prices during the post harvest period have been used with appropriate adjustment, weights allotted to each crop are mentioned in the table. During recent years a number of additional crops have been covered under the system of crop estimation. The coverage of the all India series has thus been enlarged by including these additional crops viz., fruits and vegetables, turmeric & arecanuts, guard seed etc. These 42 crops now account for nearly 96% of total gross cropped area in the country.

The change over during the last decade or so from the traditional method of reporting area and production of crops to the method of complete enumeration in the case of area and to crop estimation survey for estimation of yield rates and also increase in reporting area, have taken place progressively in respect of different crops in different states. To provide for these change in coverage and methods of estimation, the index numbers agricultural production are constructed by the chain-base method under which the production of a crop during a year is expressed as a relative the same corresponding production in the preceding year, based on the same coverage and methods of estimation. These relatives for each crop are linked to the base year through the intervening chain relatives to give the production index for the crop.

The application of chain-base method involves two assumptions which are :-

(i) The variation in production in the non-reporting areas is the same as that in the reporting areas in the aggregate; and

(ii) the relative variation in the figures of production based on crop-estimation surveys is the same as that based on the traditional method of crop estimation employing eye-appraisal and normal yield figures.

The practical implications of (ii) above are that for the transitional year, that is, when the method of estimation undergoes a change the estimates of production should be available on the basis of both- the traditional method and the crop-estimation surveys.

Index of

Agricultural Production

$$= \frac{a_{ij} \quad y_{ij} \quad p_{io}}{a_{io} \quad y_{io} \quad p_{io}} \times 100$$

or

$$= \frac{p_{ij} \quad p_{io}}{p_{io} \quad p_{io}} \times 100$$

where a_{ij} = area under the i th crop in the j th year.

a_{io} = area under the i th crop in the base period.

y_{ij} = yield per hectare of the i th crop in the j th year

y_{io} = yield per hectare of the i th crop in the base period.

p_{io} = price per unit of the i th crop in the base period.

p_{ij} = production of the i th crop in the j th year.

p_{io} = production of the i th crop in the base period.

Table 20-

This table gives an account of agricultural implements and machinery in actual use as recorded- in the quinquennial livestock censuses. Statewise details are also given for the livestock census year 1977.

(1) Data relate to nuts in shell.

(2) In terms of lint cotton.

(3) Production of cotton is in bales of 170 kgs. each and Jute & Mesta in bales of 180 kgs. each.

(a) Less than 500 tonnes.

(b) Less than 500 bales.

LIVESTOCK AND FISHERIES

This section contains tables regarding livestock and fisheries. Data regarding the number of livestock and poultry, besides agricultural implements (shown separately under Agriculture), are collected through a census conducted quinquennially. In the rural areas, primary data are collected through the village revenue agencies where they exist and through other local staff, where they do not. In the urban areas staff of the municipal or notified area committee, collect the information. The data are compiled by the Department of Agriculture, Veterinary or Land revenue, as the case may be, in the different States and consolidated returns showing district wise details are furnished to the Directorate of Economics and Statistics, Ministry of Agriculture. The 12th Livestock Census was carried out in the most of States with 15th April, 1977 as the reference date. The reference date in the case of Bihar, Haryana, Karnataka, Kerala, Tamil Nadu and Pondicherry was 15th July, 1977 and in the case of Himachal Pradesh and Delhi 15th May, 1977, Jammu & Kashmir 15-11-1977, Orissa 1-12-1977. Uttar Pradesh 31-3-1978, Nagaland & Arunachal Pradesh 15-4-1978, Maharashtra 15-12-78, Assam 15-4-1979 and A & N Islands 15-6-1979:

Tables 21-22

Table 21 provides data regarding number of livestock by category of livestock. This also shows the number of poultry. Table 22 presents number of male and female cattle and buffaloes used for work only. Working cattle include bulls and cows and working buffaloes include male and female buffaloes over 3 years and kept for work only.

Tables 23-24

These tables give the production of milk and estimates of raw wool production in India.

Tables 25-26

Table 25 presents data regarding fish catch and landings by groups of species. Table 26 provides data regarding quantity of fish catch by disposition.

FOREST

This section contains tables on area under forest by type, major and minor forest produce and revenue and expenditure and progress of forest regeneration and afforestation. The main source for these data are the Forest Departments of various States and Union Territories, who supply data to the Ministry of Agriculture for their publication "Forestry in India".

Table 27 :

This table presents area under forest classified by types as described below :

- (i) Composition namely coniferous (soft-wood) and non-coniferous (broad leaved). Coniferous forest is one in which 80 per cent or more of the volume is coniferous species and non-coniferous species, both hard and soft;
- (ii) Functions, namely merchantable and non-merchantable. Forests which are within the reach of economic management or exploitation as sources of forest products including immature forests and managed forests where fellings are prohibited, are known as merchantable forests and forests which are not yet managed or exploited owing to inaccessibility or on account of forest produce in them being unsaleable are known as non-merchantable forests (or inaccessible and unprofitable forests) ;
- (iii) Legal Status such as " reserved", "protected" and "unclassified." Reserved forest is one which is permanently dedicated either to the production of timber or other forest produce and in which right of grazing and cultivation is seldom allowed. In protected forests these rights are allowed subject to a few mild restrictions. Unclassed forests occur mostly in Madhya Pradesh, Assam, Bihar and Maharashtra and consist largely of inaccessible forest or unoccupied waste; and
- (iv) Ownership, namely area owned by (a) Forest Department; (b) Civil authorities (c) Corporate bodies; and (d) Private individuals.

Table 28 :

This table provides data relating to forest produce classified as major and minor produce. The column others under minor produce, includes fibres and flosses, vegetable oils and oilseeds, Bidi leaves and other minor produce. Figures of quantity along with total value are shown in the case of the former and value only in the case of the latter.

Table 29:

This table gives gross and net revenue from and expenditure on forests.

Table 30 :

This table provides data relating to area of forest protected from fire and cattle. The figures relating to "total area of all forests under Forest Department" given in this table are inclusive of other forest area which is also controlled by the Forest Department.

Table 31 :

This table shows the figures relating to area of existing forests regenerated and of area afforested. This also presents the figures of the total cost of regeneration and afforestation.

FOREST

(1) 1960-61 and onwards excludes Jammu & Kashmir as legal classification of forest area not available.

(2),(3)&(4) Relate to the years 1976-77,1977-78 &1978-79 respectively.

(a) Includes 6212sq.kms in 1965-66 and 8556 sq.Kms in 1970-71 for want of legal classification.

(b)& (c) Include 5496 &5429 sq. kms for which details are not available.

(d) Also includes forest area which is not accounted for in subsequent columns (3 to 13) for want of details.

(e) Included under the head Merchantable.

(f) Decline due to deforestation of forest area.

* Estimated.

Haveli, Delhi, Goa, Daman & Diu and Mizoram the data are not available. Also excludes Haryana (column 2 to 6) for which data are not reported in Sq. Kilometres.

SERICULTURE

Table 32 :

Available data relating to sericulture, which are restricted to the production of raw silk and silk yarn, have been collected by the Central Silk Board, with the co-operation of Sericulture Department in the States and are presented in these tables.

Raw silk is of two kinds, viz., mulberry and non-mulberry. The distinction arises from the rearing of silk-worms upon either mulberry leaves or other plants. Mulberry silk is produced mainly in Karnataka, West Bengal, Jammu & Kashmir, Assam, Punjab, Tamil Nadu and Andhra Pradesh although some other States have made some progress in this direction under their development plans. Non-Mulberry silk comprising Tasar, Eri and Muga is produced in Assam, Bihar, Madhya Pradesh, Orissa, Manipur and West Bengal.

The different types of non-mulberry silk and spun silk and noil yarn are further defined as follows.

Tasar Silk.— It is silk reeled from cocoons of silkworms belonging to saturnidae family, which are fed on leaves of oak, asan and arjan trees. Tasar silk is mainly produced in Bihar, Madhya Pradesh, West Bengal and Orissa. Efforts are being made to introduce oak tasar rearing in the State of Manipur, Jammu and Kashmir, Himachal Pradesh and Uttar Pradesh.

Eri Silk. — It is spun from cocoons of silkworms belonging to saturnidae family, which are fed on castor leaves. Eri yarn is produced in Assam Bihar and West Bengal. Unlike other kinds of silk, this cannot be reeled and hence it is only spun. It has natural copperish colour.

Muga silk.— it is silk produced only in Assam from cocoons of silk worms belonging to saturnidae family, which are fed in Som and Soalu leaves. It has a rich golden colour.

Spun Silk Yarn.— Yarn composed of silk filaments of lengths ranging from 1 to 8 inches produced by bleaching, dressing and spinning the silk waste which is the by-products of the raw silk reeling industry.

Noil Yarn. — It is short-staple residue obtained during dressing operations in silk spinning from silk waste. It is a by-product of spun silk industry. This can be spun into Noil Yarn of coarse counts.

Table 32-A.

It shows the quantity and value of exports of silk goods and silk waste with a detailed break-up of mulberry silk items in particular.

IRRIGATION

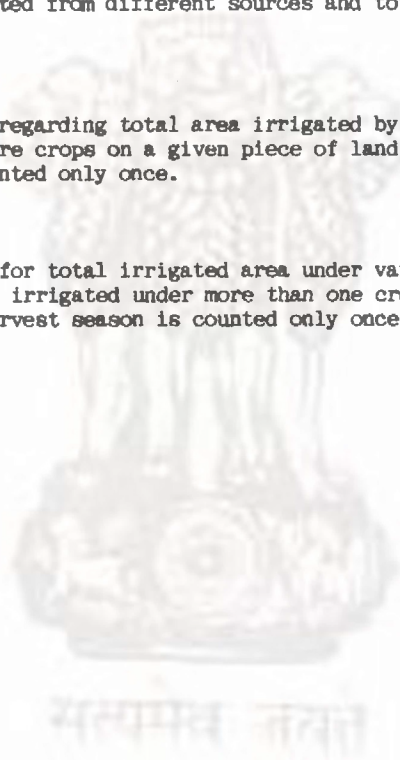

Statistics of area irrigated from different sources and total area of crops irrigated are presented under this section.

Table 33:

This table presents data regarding total area irrigated by different sources which represents net irrigated area. If two or more crops on a given piece of land are irrigated in the same year from the same source, the area is counted only once.

Table 34:

This table provides data for total irrigated area under various crops which represents gross irrigated year and includes area irrigated under more than one crop during the same year. Area irrigated more than once in a harvest season is counted only once.

CHAPTER 8

MINING

The activity of mining and quarrying covers underground and surface mines, quarries and wells and includes extraction of minerals and also all the supplemental activities such as dressing and beneficiation of ores and other crude materials, like crushing, screening, washing, cleaning, grading, milling flotation, melting, pelletising, topping and other preparations carried out at the mine site which are needed to render the material marketable.

The section presents data on quantity, value and Index Numbers of Mineral Production in India, which covers the entire production in the mining and quarrying sector except for ilmenite and rutile which are declared as prescribed substances under the Atomic Energy Act, 1962 and for minor minerals which are defined under the Mines and Minerals (Regulation and Development) Act, 1957.

The primary sources of the data on production of minerals other than solid and fossil fuels, atomic minerals and "minor minerals" are the statutory returns submitted by mine owners to the Indian Bureau of Mines under provisions of the Mineral Conservation and Development Rules, 1958. The Bureau obtain data on coal from the Coal Controller, Calcutta in respect of all states except Jammu & Kashmir for which the source is the J. & K. Minerals Ltd., Jammu. Data on lignite are collected from the Gujarat Mineral Development Corporation Ltd., Ahmedabad and the Neyveli Lignite Corporation Ltd., Neyveli. Statistics relating to petroleum and natural gas are collected from the Ministry of Petroleum, New Delhi. Statistics relating to atomic minerals are collected by the Department of Atomic Energy. Statistics relating to 'minor minerals' are collected from the State Governments.

Production statistics of natural gas and petroleum (crude) are shown separately for the off-shore deposits in Bombay High.

Table 35.

This table contains mineral-wise data on number of mines in India by the categories such as fuels 'metallic' and 'non-metallic' minerals.

Table 36

This table contains mineral-wise data regarding quantity and value of mineral production in India, by categories such as fuels, metallic and non-metallic minerals.

Table 37

The base of the Index of Mineral Production is 1970. The index covers 61 items classified as per the National Industrial Classification 1970. Ilmenite and rutile continue to be excluded from the index as these minerals are covered under the Atomic Energy Act, 1962. The index exclude minor minerals also.

(1) Excludes the data for atomic and minor minerals, natural gas and petroleum(crude).

(2) Following nationalisation and amalgamation in 1974, the number of coal mines dropped to 394 in 1976 from 779 in 1971.

Note:- Source of data for the year 1951,1956,1961 and 1966 is the Directorate General of Mines Safety (which was known as the Chief Inspector of Mines prior to 1967).

Goa	146	6	-	-	-

The total number of mines in the metallic group does not tally with total of the individual mines of metallic minerals because one multimetal mine has been included both in copper and lead & zinc from 1979 onwards.

(*) Relates to copper concentrates.

(1) In Kilograms. (2) 000 tonnes

(a) Relates to lead metal only.

* Includes production and value of copper concentrates produced from 1977 in Sikkim and from 1983 in Orissa.

(c) Recovered from ore obtained incidental to prospecting and exploring operation.

(d) Recovered as by product from copper sline.

(f) Includes concentrates.

(a) Kaolin natural refers to the mineral produced and consumed as such.

(b) Break downs for the years 1951 to 1956 are not available.

(1) In '000 tonnes.

INDUSTRY

This section deals with the following items:-

- (a) Annual Survey of industries-Census sector,
- (b) Production of cotton yarn and piece-goods,
- (c) Production of man-made fibre fabrics
- (d) Manufacture of salt,
- (e) Production of certain selected industries, and
- (f) Index numbers of industrial production.

Table 38 & 39

These two tables present data regarding Annual Survey of Industries, the scope and coverage of which is described below. The annual Survey of Industries replaced the Census of Manufacturing Industries with effect from the survey year, 1959. The survey is conducted under the authority of the "Collection of Statistics Act, 1953" and the "Collection of Statistics (Central) Rules, 1959" framed there under. These tables give state and industry groupwise information on important characteristics of manufacturing industries for 1959, 1961, 1966, 1971 and 1974-75 to 1982-83 at all India level and both all India and state levels in 1982-83.

Geographically, the survey covered the whole of the Indian Union, including Jammu & Kashmir although the Collection of Statistics Act did not extend to Jammu & Kashmir. From Jammu & Kashmir the data initially were collected on a voluntary basis and later collected under the Jammu & Kashmir Collection of Statistics Act, 1961 and Rules of Collection of Statistics 1964 framed there under.

The coverage of the survey extends to all factories registered under the factories Act, 1948. Data, however, were not collected from defence installations, factories engaged in storage and distribution of oil and technical training institutes not producing anything for sale or exchange even though these were registered under the Factories Act.

The Annual Survey of Industries upto 1965 relates to the calendar year with the exception of sugar cotton ginning and pressing factories and electrical undertakings for which the reference periods were respectively the year ending 30th June, 31st August and 31st March respectively. From 1966 onwards it relates to the accounting year of the factories on any day between 1st April to 31st March of the next year.

Definition and concepts of some of the terms used in these tables are mentioned below :-

Productive capital.- It consists of fixed and working capital. The former comprises land, buildings, plant, machinery, furniture, etc., and the latter consists of stocks of materials, fuels, semi-manufactured products, cash-in-hand and at the bank etc.

Number of persons employed.- This is computed by taking the total attendance of persons in all the shifts on all the days and dividing it by the number of days worked. It includes persons attending and on leave with pay, and also those engaged in welfare activities.

Workers.- The term "workers" is used in the same sense as in the factories Act, 1948, but excludes persons holding position of supervision or management or employed in a confidential position. Under the factories Act, a worker has been defined as "a person employed whether for wages or not in any manufacturing process, or any other incidental or connected work".

Man-hour Worked.- "The number of man-hour worked" during a year is calculated by multiplying the number of workers employed in each shift by the number of hours in the shift and aggregating the products for all shifts on all the working days in the year. From 1975-76 Man -hours have been replaced by Man-days.

Salaries and Wages.- The term "salaries and wages" includes all payments made in cash such as basic wages, dearness allowance, overtime payments, shift allowance, leave wages, bonus, etc.

Money value of benefits.- These include benefits like supply of cheap foodgrains, medical and educational facilities, payment of pension, gratuity, employers' contribution to provident fund and employees state insurance, etc.

Value added by Manufacture.- This represents that part of the value of the product which is created in factory. It is computed by deducting from the gross ex-factory value of output, the gross value of input comprising cost of fuels and materials used, industrial and non-industrial services purchased and depreciation of fixed assets.

Table 40-42:

These three tables respectively present data regarding cotton yarn, cotton cloth and man-made fibre fabrics produced in cotton textile mills in India. The data are based on the statutory returns obtained by the office of the "Textile Commissioner, under Cotton Textile (Control) order, 1948 and are published in their annual publication Indian Textile Bulletin. All units of the organised, cotton, textile industry, i.e. mill sector have been covered.

Table 41:

Presents cotton cloth production data by weight and by length distinguishing it according to the category of cloth namely coarse medium, fine, etc. The data regarding total cloth produced by the decentralised sector of the cotton textile industry have also been shown in this table.

Table 42:

Presents data regarding man-made fibre fabrics produced by power looms and hand looms and the mill sector, Man-made fibre fabrics comprise art silk, synthetic fabrics and staple fibre fabrics.

Table 43:

This table presents data regarding installed capacity and production of selected industries in India. The data are based on the returns obtained from producing units on a voluntary basis by the Directorate General of Technical Development (DGTD), except in the case of coal, sugar, cotton & woollen textiles and iron and steel for which the information is obtained on a statutory basis by the Coal Controller, Directorate of Sugar & Vanaspati, Textile Commissioner and Iron & Steel Controller respectively.

Figures for organized industries like iron and steel, sugar, cotton and jute textiles, cover almost the entire production in the country. Jute production figures from January, 1951 to December, 1973 relate to mills in the membership of Indian Jute Mills Association which account for nearly 95 percent of the entire output. Figures from 1974 onwards are those supplied by the Jute Commissioner and having more coverage. Figures for other industries represent all organised factories in those industries but small units have been left out. An elaborate account of scope and coverage of statistics published in this Table may be had from Appendix 1 to the Monthly Statistics of the Production of Selected Industries of India for September, 1981.

Table 44:

This table presents the index numbers of industrial production with base 1970=100. The first index called the Interim Index of Industrial Production with 1946 as the base, covered 35 items. It was revised to base 1951 increasing the number of items to 88 and published in October, 1955. This was again revised and published in July 1962 after shifting the base to 1956 and covering 201 items. The index was subsequently revised to base 1960=100. The monthly index of this series was based on 312 items and the annual index was based on 436 items. These index numbers were published in July-August, 1967 (Supplement) of Monthly Statistics of Production of Selected Industries. This index has been further revised to base 1970=100, and released in March, 1975 issue of Monthly Statistics of Production of Selected Industries for the first time.

The index (1970=100) series is based on 352 items. But due to non-availability of monthly production data, 137 items have been deleted from June '85 onwards. Weights of the deleted items have been apportioned among the relevant groups/sub-groups. The redistributed weights are shown from this issue.

The weighting diagram for Div. 2 & 3- Manufacturing Sector, was based on the result of ASI 1970. For Division-1, Mining Sector, the net value added by that sector as estimated by Indian Bureau of Mines has been used. In case of Division 5-Electricity, the net value added in 1970 has been taken

from the white paper on National Income published by CSO.

The index is a simple weighted arithmetic mean of production relatives, the weights being proportional to gross value of output as available from A.S.I.-1968. Since these results for the base year 1970 were not available at that time. At the industry indicator levels, the weights were allocated in proportion to their gross value of output. The index is calculated by the formula:-

$$I = \frac{\sum R_i W_i}{\sum W_i}$$

Where I is the index, R_i is the production relative for the item 'i' for the month in question and w_i the weight allotted to it. The symbol \sum denotes summation over all items. The index has been revised from time to time to reflect adequately the industrial growth by shifting the comparison base to recent period by covering larger number of items and industries and by improving, as far as practicable the technique of construction.

INDUSTRY

Source : Central Statistical Organisation.

(a) Includes 8 factories in A & N Islands from which no returns were received.

(b) Excludes particulars relating to 6 factories for the year 1966 whose returns were received late for inclusion. They accounted for the following.

	1966 (Rs. Crores)
1. Productive capital	1.2
2. No. of persons employed, total	393.6
3. Wages, salaries, benefit and employers' contributions, etc. total.	1.5
4. Input, total	3.6
5. Output, total	5.4
6. Value added by manufacture	2.1

(1) Included under col. (25) for the years from 1974-75 onwards.

(2) From 1975-76 man-days (employees) have been given in place of man-hours (workers).

(a) Particulars in respect of this item are included under the heading : "Products and by-products".

INDUSTRY

Table 39-ANNUAL SURVEY OF INDUSTRIES(CENSUS SECTOR)- 1982-83

(Selected characteristic by Industry)

Industry	No. of factories registered	No. of factories reporting	Produ- ctive capital (Rs. Lakhs)	No. of persons employed	Gross output ex- factory value(Rs. Lakhs)	Value added by manufac- ture(Rs. Lakhs)
1	2	3	4	5	6	7
Slaughtering, preparation and preservation of meat	17	17	1,310	3,020	3,723	303
Dairy products	134	121	18,645	33,497	85,569	6,909
Canning and preservation of fruits & vegetables	61	57	1,652	8,203	4,699	621
Canning, preservation and processing of fish, crustacea and similar foods	77	70	1,344	6,062	14,071	570
Grain mill products	988	952	12,612	63,643	79,111	4,645
Bakery products	112	108	4,274	17,982	22,144	3,219
Manufacture and refining of sugar (Vacuum pan sugar factories)	307	305	107,221	353,656	292,663	45,872
Production of indigenous sugar, boora, khandsari, sugar, etc. from sugar cane, palm juice etc.	1,501	1,464	7,756	181,601	30,015	4,065
Production of common salt	162	159	1,927	29,967	2,445	1,045
Cocoa, Chocolate and sugar confectionery (including sweet meats)	20	20	624	2,625	3,104	508
Hydrogenated oils, vanaspati- ghee etc.	74	68	10,650	17,915	120,529	7,145
Other edible oils and fats e.g. mustard oil, groundnut oil, etc.	238	230	5,903	18,225	59,798	2,616
Tea processing	740	740	25,236	111,772	91,720	15,841
Coffee curing, roasting and grinding	30	30	960	6,652	1,066	403
Cashewnut processing like drying, shelling, roasting, salting etc.	431	414	1,997	120,182	9,946	2,192
Manufacture of ice	7	6	42	114	40	11
Manufacture of prepared animal feed	34	33	1,978	3,547	6,621	842
Manufacture of starch	23	21	2,779	4,442	7,489	1,205
Manufacture of food product n.e.c.	150	143	5,080	15,387	15,211	3,071
Distilling, rectifying and blending of spirits	68	65	5,976	12,867	12,164	3,087
Wine industries	10	9	898	3,036	3,627	895
Malt liquors and malt	38	36	4,306	6,975	9,662	1,987
Production of country liquor and toddy	15	13	716	2,159	1,997	499
Soft drinks and carbonated water industries	48	43	1,345	6,769	5,960	1,579
Tobacco stemming, redrying and all other operations etc.	409	407	5,386	98,624	29,123	2,385
Manufacture of bidi	394	391	1,150	45,349	9,286	1,623
Cigars, cigarettes, cheroots and cigarette tobacco	15	14	6,680	9,210	14,040	3,478
Chewing tobacco, zarda and snuff	57	57	626	5,090	6,165	712
Tobacco and tobacco products n.e.c.	9	9	33	569	221	27

Source: Central Statistical Organisation.

Note:- Data from 1980-81 onwards are provisional.

(1) Figures represent the production of only large flour mills.

(2) Figures of cane sugar refer to crop year (Nov.-Oct.,) from 1980-81 onwards data relate to changed crop year (Oct.-Sept.).

(3) Total output of coffee cured, pounded and delivered to the coffee pool.

(4) Data from 1971-72 include decentralised sector also.

(5) Figures upto 1973 relates to Indian Jute Mill Association and that from 1974 onwards is from Jute Commissioner. (6) Includes canvas.

(7) The installed capacity refer to powerloom installed.

(8) From 1971 onwards, production figures relate to annual estimate report based on availability of indigenous imported raw materials.

(θ) Unit refers both installed capacity and production unless former is specified in column (1).

V. Manufacture of footwear, other wearing apparels and made up textile goods.									
Foot-wear-									
(a) Western leather	'000 pairs	13,560	8,765	13,195	8,011	..	7,265	..	6,939
(b) Indigenous	'000 pairs	9,444	6,948	6,800	6,359	..	7,031	..	7,242
VI. Manufacture of wood and cork except manufacture furniture.									
Ply-wood(1)									
(a) Tea chests	'000 sq.mts	56,076	2,285	..	742
(b) Commercial	'000 sq.mts	..	33,976	..	51,375
VII. Manufacture of paper products.									
Paper and paper boards	tonnes	1,137,000	888,224	1,816,550	1,218,127	..	1,182,417	..	1,361,832
(a) Printing	tonnes	..	526,877	..	721,873	..	700,703	..	807,021
(b) Wrapping	tonnes	..	207,397	..	284,184	..	275,800	..	317,722
(c) Special varieties	tonnes	..	7,851	..	4,630	..	4,496	..	5,177
(d) Board	tonnes	..	146,099	..	207,440	..	201,358	..	231,912
VIII. Manufacture of leather and leather products except footwear.									
Tanned hides									
(a) Chrometanned	'000 nos.	3,180	1,519	6,536	5,725
(b) Vegetable tanned									
buffalo and cow hide									
(expressed in ter- ms of cow hides)	'000 nos.	2,212	934	996	420
Leather cloth	'000 mts	32,040	13,850	42,450	20,122	82,950	23,412	..	22,086
IX. Manufacture of rubber products.									
Footwear (rubber)	Lakh pairs	558	423	549	360	..	382	..	358
Dipped rubber goods									
(Toys, balloon, nipples, valves, tests, etc.)	Lakh doz.
Tyres-									
(a) Automobile	'000 nos.	5,188	5,402	9,479	7,509	..	8,342	..	9,576
(b) Cycle	'000 nos.	34,188	22,860	34,297	26,152	..	32,005	..	31,620
(c) Tractor	Nos.	159,600	439,000	..	725,000	..	818,000	..	997,000
(d) Aero	Nos.	12,000	15,141	..	17,362	..	16,777
(e) Cab	'000 mts
Tubes-									
(a) Automobiles	'000 nos.	5,182	4,890	10,337	6,678	..	7,044
(b) Cycle	'000 nos.	29,760	15,920	31,226	13,601	..	17,632
(c) Tractor	Nos.	165,600	398,043	..	595,000	..	598,000
(d) Aero	Nos.	5,004	4,109	..	2,340	..	977

(1) Total capacity for tea-chests and commercial.

(a) Unit refers to both installed capacity and production, unless former is specified in column (1).

(1) From 1962 onwards production figures are included in those of 'Pig Iron'.

(2) Includes capacity for 'Direct castings' and 'Ferro alloys'.

(3) From September, 1962 onwards figures relate to steel ingots only.

(4) From January, 1961 onwards figures relate to production for sale only.

(5) Relate to refined copper only.

For other footnotes please see next page.

Calico looms
Plain semi-automatic and automatic	nos.
Complete ring spinning frames	nos.
Grinding wheels	tonnes	8,520	6,978	10,980	8,972	..	7,972	..	8,843
Carding engines(revolving flat cards)	nos.
Arc welding electrodes	lakh R.mts	5,040	5,153	7,420	6,655	9,110	6,953	..	6,882

(6) Includes installed capacity of brass pipes and tubes from January, 1971 onwards.

(7) Installed capacity combined with capacity of brass rolled products.

(8) Installed capacity combined with capacity of copper pipes and tubes.

(9) Diesel engines (stationary tube).

(10) The actual production for 1945 to 1961 was much in excess of installed capacity because while installed capacity was calculated for a single-shift working, one of the units had been working for more than one shift.

For other footnotes please see pre page.

POWER

Figures presented in this section relate to installed plant capacity, generation, Consumption in power station auxiliaries, per capita consumption and sales of electricity by public utility electric supply undertakings, whether owned by Government, local authorities, or companies. Military factory and railway power stations with the sole exception of Chola Power Station are excluded. Bombay is inter-connected with the Tata power system and the Renukoot Power House (U.P.) which is inter-connected with U.P. Grid. The data given in this section are compiled by the PDB & I Directorate of the Central Electricity Authority, Department of Power, Ministry of Energy and are Published in their annual publication, "Public Electricity Supply-All India Statistics-General Review".

Table 45:

This table presents state-wise figures of total installed capacity, electricity generated, electricity used in power station auxiliaries, and per capita consumption of electricity. The figures for installed plant capacity and electricity generated do not include data relating to non-utilities such as self generating industries and railways. Figures of electricity generated in a state do not include the power purchased from other states. Data on electricity generated by the Damodar Valley Corporation and the Central Government projects have been shown separately.

Table 46:

The statewide data on electricity sold to ultimate consumers by public electricity undertakings are presented in this table by categories of consumers namely domestic, commercial, industrial power, public lighting, traction, agricultural, public water works, sewage pumping and miscellaneous.

Table 47

In this table, data are presented for total number of towns/villages electrified along with the percentage electrified by States. The data are compiled by Rural Electrification Directorate Agencies helping in compilations of data are State Electricity Boards and Electricity Departments of various States and Union Territories.

NOTE:-Totals may not tally due to rounding off of figures.

(1) Includes D. V. C.s Sales to ultimate consumers.

(2) Estimated

(a) Included in Industrial low and medium voltage.

(b) Includes 61.5 crores K.W.H. Sales to Nangal Fertilizers by B.B.M.B.

(c) It does not include energy supply by P.S.E. Board to Public Water Works consumers which has been included in agricultural category.

(d) Included in Industrial High Voltage.

(e) Karnataka Electricity Board's Public Water Works Consumption included in Industrial Low & medium voltage category.

(a) 62 villages have been declared uninhabited.

(b) The revenue block has been reckoned as the smallest administrative unit by the census authorities.

BANKS

The tables in this section present a consolidated picture of progress of banking in India, showing liabilities and assets of categories of banks as classified below :-

- (i) Reserve Bank of India.
- (ii) Scheduled Commercial Banks-
 - (a) State Bank of India.
 - (b) Other Indian Banks.
 - (c) Foreign Banks.
- (iii) Non-Scheduled Indian Commercial Banks.
- (iv) Indian Co-operative Banks.

Besides the above information, tables showing (i) the total number and amount of cheques cleared, (ii) percentage of cash balances to deposit liabilities of several classes of banks, (iii) working of Industrial Finance Corporation of India, (iv) State Financial Corporations, (v) Industrial Development Bank of India, and (vi) Industrial Credit and Investment Corporation of India.

Table 48 :

Liabilities and Assets of Reserve Bank of India (Banking Department): The table provides data relating to the Banking Department of the Reserve Bank of India. Figures relate to transactions in the Indian Union.

Table 49 :

Liabilities and Assets of different classes of Banks :

This table provides data for liabilities and assets of various classes of banks, which are described below :

A. Scheduled Commercial Banks :- The banks, which carry on business of banking in India and which are included in the second schedule to the Reserve Bank of India Act, 1934 are known as Scheduled Banks. These include the State Bank, other Indian Banks and Foreign Banks.

(i) State Bank of India :- The State Bank of India was formed in July, 1955 after the nationalisation of the Imperial Bank of India. Figures in this table relate to the business of the bank in India and abroad.

(ii) Other Indian Banks :- Indian banks are those who have their registered offices in India. These include data for Private Sector Banks and 20 nationalised banks. The figures relate to the business both in India and abroad

(iii) Foreign Banks :- Foreign banks are those who have their registered offices outside India. The data relate to their business in the Indian Union.

B. Non-Scheduled Indian Commercial Banks :- The Banks which are not included in the Second Schedule to the Reserve Bank of India Act, 1934 are known as Non-scheduled Banks.

C. Indian Co-operative Banks :- These include scheduled Central and State Co-operative Banks.

Table 50 :

The table shows the number and amount of cheques cleared at each principal clearing centre managed by the Reserve Bank of India. The total for all "other centres" comprising clearing house managed by the State Bank of India, subsidiaries of the State Bank and Sangli Bank up to March, 1967 is shown separately. The management of the clearing houses at Bangalore, New Delhi, Nagpur, Patna, Hydera-

bad, Jaipur and Trivandrum was taken over by the Reserve Bank of India in October 1953, August 1956, March 1957, January 1969, May 1969, January 1983 and November 1984 respectively.

Table 51:

This table gives data on 'cash deposit ratio' which represent percentage of cash balance in hand and at banks to total deposits of different classes of banks.

Tables 52-54

The data provided in these tables relate to the working of the Industrial Finance Corporation of India, the State Financial Corporations, the Industrial Development Bank of India and the Industrial Credit and Investment Corporation of India respectively and furnish data on the liabilities and the assets of the same.

2. Industrial Credit and Investment Corpn. of India.

Note:- Totals may not tally due to rounding off of figures.

(1) Includes Reserve Fund, Reserve for doubtful debts and provision for taxation.

(2) On account of shares and debentures partly paid held as investment and guarantees and underwriting.

(3) In Govt. Securities, Bonds and debentures, shares and stocks and Unit Trust of India and I.R.C.I.

(4) Guarantees and other Assets.

CO-OPERATIVE SOCIETIES

This section presents data regarding the number, membership and financial position of various classes of co-operative societies, thus depicting in abstract form the working of co-operative societies in India.

Tables 56-63 :

Table 56 provides the data for number and membership of all types of co-operative societies.

Tables 57-63 present data regarding the number, membership and financial position respectively of the following classes of co-operative banks and societies:-

- (i) State Co-operative Banks.
- (ii) Central Co-operative Banks.
- (iii) Primary Credit Societies (Agricultural and non-agricultural).
- (iv) Grain Banks.
- (v) Central Land Development Banks.
- (vi) Primary Land Development Banks.
- (vii) Primary Non-credit Societies.

The data relate to the years ending June. Prior to 1967-68 'Land Development Banks' were termed as 'Land Mortgage Banks'.

(1) The figures are totals of the corresponding years in figures cols. 4 to 8. However for the years 1966-67 onwards totals may not exactly add-up because Col. 9 also includes deposits which are not shown separately in the table and also because there are certain other differences.

(a) Includes reserve fund, price fluctuation fund, depreciation fund etc. (b) Value of purchases as owners only.

(c) Value of agricultural produce, agricultural requisites and consumer goods sold. (d) Excluding unions.

(e) Value of production. (f) Income from services rendered. (g) Value of yarn and cloth purchased and cloth produced.

(h) Sales of cloth and sales of product of members and others.

(j) Relate to value of houses and tenements constructed by societies and

their members during the year. (k) Catch value. (l) Represents sales of forest products and distribution of consumer goods.

(m) Represents value of contracts executed and consumer goods distributed.

(n) Value of forest products.

(o) Income from transport charges. (*) Value of raw material purchased and goods produced.

JOINT STOCK COMPANIES

This section contains statistics relating to joint stock companies which are based on returns received from Registrars of Joint Stock Companies.

Tables 64-66

These tables present data regarding joint stock companies at work, newly registered and liquidated respectively.

Statistics are given for the number and paid-up capital of the companies, liability of which is limited by shares only. Authorised capital is given in the case of newly registered companies (Table 65). Companies (Industrial) are classified according to International Standard Industrial Classification of Economic Activity adopted in 1954-55. Earlier figures, according to old classification, were published in previous issues of the Abstract. The number of foreign companies, which carry on business in India is also shown in Table 64. The figures relate to companies incorporated elsewhere than in India, the majority of which are with sterling capital.

INSURANCE

Figures in this section refer to the insurance business of insurers who transacted business under the Insurance Act, 1938. The Postal Life Insurance Fund (Tables 70 & 71) is, however, exempt from the operation of the Act. From September 1, 1956, life insurance was a nationalised and the then existing business of Indian insurers, and Provident Societies and Indian business of foreign insurers was vested in the Life Insurance Corporation of India.

LIFE INSURANCE-Table 67-

This table gives the revenue account of the insurance business in India. Figures are for the financial year ending 31st March except in the case of the year 1961, as L.I.C. have changed over to financial year as their accounting period, from 1 April, 1963.

Table 68-

This table shows the summary of the balance-sheet of life and other classes of business of the Life Insurance Corporation of India.

Table 69-

This table gives the new life insurance business by Indian Insurers during the year and total business in force at the end of the year.

Postal Insurance - Tables 70 & 71-

The postal insurance data were available separately for whole life and endowment policies upto the year 1963-64. As the accounts for the two have been amalgamated and are not being maintained separately from April 1964, consolidated data for whole life and endowment postal insurance, are shown in table 70 & 71 from 1964-65 onwards.

Fire, Marine And Miscellaneous Insurance - Table 72-

Figures for insurers are for calendar year 31 December while those for Life Insurance Corporation of India are for financial year ending 31 March excepting 1972 figures which are for the 9 months period ending 31 December, 1972.

Table on General Insurance business of Non-Indian Insurers has been discontinued as the data for the table are not available after Jan. 1, 1973, when general insurance was nationalised, and the undertakings of foreign insurers were transferred to and vested in the Indian Insurance Companies.

Source: Office of the Controller of Insurance.

Note :- Figures for the year 1966-72 include General Insurance Business of the Life Insurance Corporation of India. Since 1-1-1973, the L.I.C. of India, has not been transacting any general insurance business. Figures for insurers other than L.I.C. are for calendar year ending 31 December while those for L.I.C. are for financial year ending 31st March, except 1972 figures which are for 9 months ending 31st December, 1972 in respect of L.I.C.

TRADE

(A) FOREIGN TRADE

The figures represent trade with foreign countries both on private and government accounts, registered at Indian sea-ports, airports and land customs stations. Statistics are recorded on the basis of the general system of registration under which the goods arriving from abroad are first included under imports and when they are shipped again they are included under re-exports. With effect from April 1963 trade arising in Goa, Daman & Diu, the Andaman & Nicobar Islands and the Lakshadweep is included. In the case of Nepal airborne trade alone was covered upto March, 1964 subsequent to which it covers both by land and air. The sources of foreign trade statistics are customs and central excise authorities. These are compiled by the Directorate General of Commercial Intelligence & Statistics from the bills of entry and shipping.

Table 74 & 74A

The Section, Division and Groupwise data for Import, Export & Re-export for the years 1977-78 on wards as shown in Table 74A are not comparable with those for the previous years upto 1976-77, as given in Table 74, due to revised structure of certain groups of the Indian Trade Classification Revision 2.

IMPORTS-Tables 75 & 80

Import figures generally show the trade as declared by importers in the bills of entry (applications for clearance) and as checked by customs officials.

Goods entered for storage in bonded warehouses and afterwards exported there from are included under imports' and re-exports'. Transshipment trade is not recognised for the purposes of Indian trade returns and is, thus, not included here. Direct transit trade is also excluded while indirect transit trade is included.

Imports of baggage of passengers are not included since November, 1964. All dutiable articles imported from foreign countries by parcel or letter post are included.

Trade in defence stores omitted with effect from October 1979.

EXPORTS AND RE-EXPORTS- Tables 76, 77 & 81

Export figures represent actual shipments as checked by the customs officials.

The figures of exports relate to Indian merchandise alone and re-exports to foreign merchandise previously imported into India.

All articles despatched to foreign countries by parcel or letter post are included since 1964-65.

The country-wise imports, exports and re-exports are given respectively in Tables 75, 76 & 77. The countries are listed in alphabetical order.

OVERALL BALANCE OF TRADE- Table 78

From April 1948 total value of foreign trade of India by all routes (i.e. sea, air and land) has been taken into account for the purpose of calculating the balance of trade. All foreign trade transaction in gold, currency notes and coins are included under treasure. Balance of trade in treasure refers to gold and silver upto December 1956 and thereafter to gold only. Trade in silver is included under merchandise after December 1956.

CLASSIFICATION OF TRADE BY COUNTRIES-Tables 75 & 76

Imports are classified with reference to the countries whence they were consigned to India and not with reference to the countries whence they were shipped direct to India. The country of consignment

is defined as that from which the goods have come whether by land and sea or by sea only or by air, without interruption of transit save in the course of transshipment or transfer from one means of conveyance to another. Thus the countries whence goods are consigned are not in all cases the countries of actual origin of goods since goods produced in one country may be purchased by a firm in another country and thence dispatched after an interval to India.

Exports are credited to the country of final destination as declared by exporters in the shipping bills whether that country possesses a sea-port or not. The country of final destination is defined as that to which goods exported from India are intended to pass whether by sea and land or by sea only or by air without interruption of transit, save in the course of transshipment or transfer from one means of conveyance to another.

The figures are those declared by importers and exporters in the bills of entry and shipping bill. The value of goods represents the wholesale cash price less trade discount for which goods (1) the like and quality are sold or are capable of being sold at the time and place of importation or exportation as the case may be without any abatement or deduction whatever, except that in the case of goods imported, of the amount of duties payable on the importation thereof, or (ii) where such price is not ascertainable the cost at which the goods of the like quality could be delivered at such place without any abatement or deduction except as aforesaid. Import valuation in practice corresponds to c.i.f. method, but export valuation was, prior to April 1951, not strictly on f.o.b. basis as it did not take into account export duties and such items as dock charges, cost of transport, etc., up to the vessel. With effect from April 1951, however, the basis of export valuation has been changed so as to conform strictly to f.o.b. basis inclusive of export duty and/or cess where leviable.

CURRENCY AREAS Table 79A, 79B & 79C

The following classification has been adopted from the year 1956-57.

Dollar Area-United States of America, Canada (including New Foundland and Labrador), Cuba, Haiti, Dominican Republic, Puerto Rico, Virgin Islands of the United States, Mexico, Guatemala, Honduras (not British), Salvador, Nicaragua, Costa Rica, Columbia, Republic of Panama, Canal Zone, Venezuela, Ecuador, Bolivia, Hawaii, Philippines, Liberia and American Samoa.

Sterling Area- All Commonwealth countries (excluding Canada) together with Irish Republic, Iceland, Jordan, Muscat and Oman and Burma. Iraq has been transferred to other soft currency areas subsequent to June, 1959. Cameroon and Somalia Republic have been included with effect from April 1963.

Other Soft Currency Area-All other countries.

Currency figures included the latest adjustments and, therefore, do not always tally with the figures in the preceding tables.

Under the revised classifications of the economic regions employed by the Directorate General of Commercial Intelligence & Statistics, Calcutta with effect from financial year 1976-77, the countries included in respective regions are mentioned below and a Special Table has been compiled on the basis of monthly data furnished by the Directorate General of Commercial Intelligence & Statistics, for publication in the Monthly Abstract of Statistics brought out by this organisation.

Region 01 : East African Community (EAC)

Kenya, United Republic of Tanzania and Uganda.

Region 02 : Organisation Commune African Malagache (OCAEM)

Benin (Dahomey), Cameroon, United Republic of ; Central African Republic, Chad, Congo (people's Republic of Congo); Gabon, Ivory Coast; Malagasy Republic (Madagascar), Mauritania; Mauritius; Niger; Rwanda; Senegal; Togo; Upper Volta; Zaire, Republic of.

Region 03 : Organisation of African Unity (OAU)

Angola; Botswana; Burundi; Canary Islands; Cape Verde Islands; Camoros, Ethiopia, Equatorial Guinea; French Southern and Antarctic Territories; French Territory of the AFARS of ISSAS (Somaliland), Gambia; Ghana, Guinea, Guinea Bissau; Lesotho; Liberia; Malawi; Mali; Namibia (South West Africa) Nigeria; other East African Countries; Reunion; Sao Thame & Principe; Seychelles; Sierra Leone; Somalia; St. Helena of Ascension; Swaziland; Western (Spanish) Sahara and Zambia.

Region 04 : Other African Countries (OAC)

Algeria : Egypt, Arab Republic of Libya; Morocco (including Tangier); Rhodesia (Zimbabwe); South Africa, Sudan and Tunisia.

Region 05 : North America

Canada ; Greenland ; St. Pierre and Miquelon and United States of America.

Region 06 : Latin American Free Trade Association (LAFTA)

Argentina ; Bolivia ; Brazil ; Chile ; Colombia ; Ecuador ; Mexico ; Paraguay; Peru, Uruguay and Venezuela.

Region 07 : Carabian Free Trade Association (CFTA)

Antigua ; Bahamas ; Barbados; British Virgin Islands; Cayman Islands ; Cuba; Dominican Republic ; Dominica ; Grenada ; Guadeloupe (Formerly French West Indies); Guyana; Haiti; Jamaica;

Martinique ; Montserrat; Netherlands Antillies; St. Kitts-Nevis-Anguilla ; St. Lucia St. Vincent ; Trinidad and Tobago, Turks and Caicos Islands and Virgin Islands of U.S.

Region 08 : Central American Common Market (CACM)

Costa Rica ; El Salvador ; Guatemala ; Honduras; Nicaragua.

Region 09 : Other American Countries (OAC)

American Samoa; Belize(Br. Honduras) Bermuda; Falkland Islands; Panama (Excluding Canal zone); Panama Canal Zone; Puerto Rico and Surinam.

Region 10 : ESCAP Countries

Afghanistan; Australia; Bangladesh; Brunei; Burma; China, People's Republic of; Christmas Islands; Cook Islands; Fiji Island; Gilbert and Ellice Islands; Hong Kong; Indonesia; Iran; Japan; Kampuchea Democratic Republic (Formerly Khmer); Korea Republic; Laos People's Democratic Republic; Malaysia; Mongolia; Nauru; Republic of Nepal; New Zealand; Pakistan; Papua and New Guinea; Philippines; Singapore; Solomon Islands; Sri Lanka; Thailand; Tonga; Tuvalu; Vietnam; Republic of and Western Samoa.

Region 11 : Economic Commission for West Asia, (ECFWA)

Baherien Island, Iraq, Jordan, Kuwait, Lebanon, Neutral Zone, Oman, Qatar; Saudi Arabia, Syrian Arab Republic. United Arab Emirates (formerly Trucial States of Abu Dhabi, Dubai, Sherjah etc.) Yemen ; People's Democratic Republic of ; Yemen, Arab Republic.

Region 12: Other Asian and Oceanian countries and Antarctic and Arctic region (OAOAAC)
China, Republic (formerly Formosa), Cocos Islands; French Guiana; French Polynesia (Oceani)
Guam, Israel; Korea, Democratic Peoples' Republic ; Macao; Maldive Islands; New Caledonia; New Hebrides; Nice Islands; Norfolk Islands; Pacific Islands (Trust Territory of); Pitcairn Islands; Portuguese Timor ; Sabah; Sarawak; Tokelau Islands ; Vietnam, Democratic Republic of ; and Wallis & Futuna Islands.

Region 13 : European Common market countries (ECM)

Belgium; Denmark ; France ; Germany, Federal Republic of Greece ; Ireland; Italy; Luxemburge; Netherlands and United Kingdom.

Region 14 : European Free Trade area countries (EFTA)

Austria ; Faroe Islands; Finland ; Iceland ; Norway ; Portugal ; Sweden; and Switzerland.

Region 15 : East European countries (EEC)

Bulgaria; Czechoslovakia; German Democratic Republic; Hungary; Poland; Rumania and U.S.S.R.

Region 16 : Other European Countries (OEC)

Albania; Andorra; Channel Islands; Cyprus; Gibraltar; Liechtenstein; Malta; Spain; Turkey and Yugoslavia.

INDEX NUMBERS OF QUANTUM AND UNIT VALUE OF EXPORTS AND IMPORTS

Tables 82 & 83

Many significant changes took place in the pattern of Indian foreign trade since 1958 and particularly from 1980. New commodities entered into the exports and many other items which were insignificant earlier gained importance. The commodity composition of imports, too, changed with the changing needs of the country. In view of changing pattern of foreign trade, the base period was further changed to 1978-79 from 1968-69 and the corresponding commodities basket was revised.

Scope and coverage

In order to ensure adequate coverage of trade for the new series of index numbers, the number of included items in case of exports and imports has been increased to 738 and 623 respectively in the case of exports as against 489 and 511 in the old series. The coverage of revised commodity basket accounts for 85 per cent of the value of exports and 85 per cent of imports for the year 1978-79.

Method of Construction

As in the case of old series, the revised Index Numbers are of the fixed base type. The Unit Value (price) Index numbers are calculated according to the Paasche formula and the Quantum Index Numbers according to the Laspeyres formula; these are however not computed separately but are derived from the former indices.

The method of calculation of Unit Value Indices briefly consists of comparing the trade in the current period with that valued at base period prices. Symbolically, the Unit Value Index Number P is given by the formula:-

$$P = \frac{\sum p_n q_n}{\sum p_0 q_n}$$

Where p_0 and p_n denote the unit value of an article in the base period and the current period respectively and q_0 and q_n its respective quantities in these periods.

As mentioned above, the Quantum Indices are derived from the unit value indices (P) as follow:-

$$\frac{V_n}{V_0} \times 100 / P$$

where V_0 and V_n are the total values of trade in the base and current periods respectively.

Adjustment for Incomplete Coverage

It is not possible in practice to include all the commodities entering in to trade since information on quantities are lacking for many miscellaneous items in the trade records. Such items cannot be included in the cross valuations and hence do not appear directly in the compilation of Index Numbers. Adjustments have, therefore, been made in the final index Numbers to allow for incomplete coverage. These adjustments are based on the assumption that the price changes in the items not covered in a section are similar to those shown by the items included in the calculation for the section. The method of adjustments can be explained symbolically as below :

The Unit Value Index (P_i) for the included items in the section is given by the formula :-

$$P_i = \frac{\sum_i p_n q_n}{\sum_i p_0 q_n} \quad (1)$$

Where \sum = Summation over all included items in the section.

The adjusted unit value index P'_i For all the items of the section will be

$$P'_i = \frac{\sum'_i p_n q_n}{\sum'_i p_0 q_n} \quad (2)$$

Where \sum'_i = Summation over all items in the i th section.

The adjusted General Index number P' will be

$$P' = \frac{\sum_{i=0}^8 \sum'_i p_n q_n}{\sum_{i=0}^8 \sum'_i p_0 q_n} \quad (3)$$

While the aggregate $\sum_i p_n q_n$ is known, the aggregate $\sum_{i=0}^8 \sum'_i p_n q_n$ is unknown and it can not be computed directly. It is, therefore, estimated on the assumption that the price changes for the covered items and for all the items in a section are the same. In other words, $p_i = p'_i$

$$\text{i.e. } p_i = \frac{\sum_i p_n q_n}{\sum_i p_0 q_n} = \frac{\sum'_i p_n q_n}{\sum'_i p_0 q_n} = P'$$

So

$$\sum'_i p_0 q_n = \frac{\sum'_i p_n q_n \times \sum_i p_0 q_n}{\sum_i p_n q_n} = \sum'_i p_n q_n \left(\frac{\sum_i p_0 q_n}{\sum_i p_n q_n} \right)$$

$$= \frac{\text{Total value of all items in the } i \text{ th section}}{\text{unadjusted unit value Index for the } i \text{ th section}} \quad (u)$$

The adjusted General Unit Value Index Number P' is obtained by substituting the above value of $\sum'_i p_0 q_n$ summing over $i=0$ to 8 in the equation(3)

Quantum Indices are similarly adjusted for incomplete coverage by using the adjusted unit value Index P' instead of the unadjusted Index P occurring in the formula for deriving the Quantum Indices, Linking of the old and revised series.

The linking of the new series of index numbers I (new) with the old series I (old) would be possible by the application of the formulae given below :-

$$I(\text{old}) = K I(\text{new})$$

$$\text{Where } K = \frac{\sum I(\text{old})}{\sum I(\text{new})}$$

An empirical study has demonstrated that this formula gives more precise results than the other formulae meant for this purpose.

$$(1) I(\text{old}) = C I(\text{new}) \text{ where } C = \frac{1}{n} \sum_{i=1}^n \frac{I(\text{old})}{I(\text{new})}$$

n=number of years of data used.

$$(2) I(\text{old}) = a + b I(\text{new}) \text{ where } b = \frac{\sum \text{Cov} [I(\text{old}) I(\text{new})]}{\sum \text{Var} [I(\text{new})]}$$

$$a = I(\text{old}) - b I(\text{new})$$

(B) COASTING TRADE

Table 84-85

Coasting trade statistics represent the trade registered at the ports in the States, that is, the trade between one State on one side and all other States on the other. The trade among ports within the same state has not been included.

The following Maritime Blocks each of which corresponds to a Maritime State or Union Territory have been adopted from April, 1957:-

(1) West Bengal (2) Orissa (3) Andhra Pradesh (4) Tamil Nadu (5) Kerala (6) Karnataka (7) Bombay (8) Andaman and Nicobar Islands and (9) Lakshadweep.

Further, consequent on bifurcation of Bombay State two separate maritime blocks (1) Maharashtra and (2) Gujarat are being shown from April, 1961. Pondicherry has been adopted as a maritime block for the purposes of coasting trade statistics with effect from the same date. Besides Goa, Daman and Diu are being treated as a separate maritime block in coasting trade with effect from April, 1963. Again Daman and Diu are being included under Gujarat with effect from April 1964.

In pursuance of Government orders with effect from April, 1964 coastal trade statistics are being compiled on import basis from daily trade returns received from the ports open to coastal trade. Export figures are being derived from import data, as imports into one port represents the exports from other ports. Statistics relating to treasure is, however, being compiled on old basis from import and export returns submitted by each maritime block.

The figure show generally the trade as declared in the shipping documents duly scrutinised and passed through the customs houses. The term "Indian merchandise" comprises all goods which are of the growth, produce or manufacture of India. Indian merchandise is distinguished from foreign merchandise in the declarations made by importers or exporters in the bills of entry or shipping bills from which the trade statistics are compiled. Passenger's baggage, postal articles and merchandise transhipped at custom ports are excluded from the scope of these statistics. Imports and exports of treasure which include gold coin as well as bullion and silver (current coins) only are recorded separately and are not included in the figures of merchandise. Transactions in silver (Other than current coins) have been included in merchandise with effect from April, 1961.

In the value of articles imported or exported as recorded in the coasting trade, customs and excise duties previously paid are included.

The year refers to the period of twelve months, April to March.

(C) INLAND TRADE

Table 86:-

Nature and scope.- Inland Trade Statistics represent the movement of trade by railways and on steamer service, from and into a State taken as a whole or a chief port or ports, the trade of which is registered separately from that of the state in which such port or ports may be situated. Movement of trade by other means (e.g. road, air, country boats etc.) is thus excluded from the scope of these statistics.

Trade Block - Prior to April, 1962 there were 29 Trade Blocks. The list has since been amplified with a view to taking into account the bifurcation of the erstwhile Bombay State into Gujarat and Maharashtra. It was further amplified in April, 1965 to provide for separate formation of Nagaland. For the purposes of accounts, and as from April, 1965, India is divided into 31 Trade Blocks, representing the States and Union Territories except Andhra Pradesh, Gujarat, Kerala, Tamil Nadu, Maharashtra, Karnataka and West Bengal which have been constituted into more than one Trade Block. The Reorganisation of the Punjab and Himachal Pradesh has been given effect from April, 1967, Chandigarh is shown, as a separate Trade Block.

"Further, a new trade block of Kandla was introduced in April, 1975 and three more trade blocks namely Meghalaya, Arunachal Pradesh and Mizoram were introduced in April, 1976. Thus number of trade blocks was 38 in April, 1976."

Method of Registration-The figures from April, 1965 onwards represent actual exports from each trade block. According to arrangement in force, each of the railways and the steamer companies registers such traffic as is despatched from stations on its line within a particular trade block to other trade blocks. Prior to April, 1965 these figures were recorded on imports' basis. In case of Tripura, however, there is no railway or steamer station or out-agency with in the trade block, and special arrangements have been made to record the trade. The trade of this block is recorded by the following agencies:-

- (1) in respect of trade via the Bangladesh Railway by certain land and customs stations on the Tripura Bangladesh border;
- (2) in respect of trade via Patharkandi station on the Assam-Tripura border, by the North East Frontier Railways.

River borne trade-The statistics upto the period ending August, 1965 cover only the trade carried only by the River Steam Navigation Co. Ltd. between the Trade blocks mentioned below. No account is taken of (a) trade carried by other steamer owners or boat-owners between these trade blocks or (b) river borne trade between other trade blocks.

- (1) Calcutta (2) Assam (3) West Bengal (excluding Calcutta)

For the purposes of registration, trade originating in a railway and transhipped, under through booking arrangements, at a railway station to a steamer for conveyance to a river station, is treated as carried wholly by rail. The above company however, suspended its steamer service from September, 1965. Thus the statistics relate only to rail-borne trade from September, 1965 to 1971-72, thereafter i.e. from 1972-73 the Central Inland Water Transport Corporation Ltd., Calcutta, are furnishing statistics in respect of river borne trade between the above mentioned blocks.

Articles and Units of measurement-The trade in certain staple articles only is recorded and the weight recorded is the net weight i.e., the gross weight entered in the invoices less certain fixed percentage which have been taken to represent the weight of packing etc. From 1978-79 the weight recorded is the Gross weight. Values are not recorded. Figure of oil seeds represent the trade in the following varieties: (1) castor, (2) cotton seed, (3) ground nut, (4) linseed, (5) rape and mustard, (6) til (jinjili). Cotton Piece goods include both Indian and foreign. Jute raw includes both loose and pucca bales. Raw cotton figures do not make distinction between ginned and unginned.

Period-Figures relate generally to the financial year April-March, but in the case of raw cotton figures relate to the year September-August.

(1) Raw cotton figures relate to Cotton year ending August.

Note:- Each of the three maritime states of Kerala, Tamil Nadu and Maharashtra is divided into three sub-trade blocks. The figures of the third sub-trade block viz. "other ports" for all these states are not shown in the break up. Hence the sum of the break up does not add up to the total.

BALANCE OF PAYMENTS

The balance of payments is a systematic record of India's international economic transactions of residents with the rest of the world on account of merchandise services, unrequited transfers and transfers of capital. Residents cover nationals as well as non-nationals residing in the country. Foreign students, tourists, foreign diplomatic officers and international institutions are not considered to be residents but diplomatic officers and armed forces of the country, stationed abroad, are treated as residents notwithstanding their physical location.

India's balance of payments statistics presented in this section are derived for most part from Exchange Control records and the basic data on most of the official transactions, not routed through the banking channels, are obtained from the Government agencies and the Reserve Bank of India.

Table 87 :

A. Current Account—Economic transactions that enter the current account are presented in two parts viz., i) Merchandise and ii) Invisibles. A surplus on current account leads to an acquisition of assets or repayment of debts previously contracted and a deficit involves withdrawal of previously accumulated assets or is met by borrowings.

Merchandise—It comprises imports and exports of movable goods. Imports are inclusive of insurance and freight although these two elements come, strictly speaking, under the category of services and exports are shown f.o.b., by removing the estimated portion of freight and insurance from those exports that are booked on c.f./c.i.f. basis.

Invisibles :-

Non-monetary gold movement—Is the change in Monetary gold holding on account of gold transactions between i) monetary and non-monetary sectors and ii) import and export of gold.

Travel :

Travel Credit item represents foreign tourists' expenditure during their stay in India and on the debit side it covers exchange sold for private and official travel.

Transportation and Insurance—Receipts cover estimated portion of freight and insurance from the exports and disbursements of foreign ships and airlines in Indian ports etc. Payments include operating expenses abroad of Indian steamship and airline companies and some freight and insurance payments.

Investment Income—Receipts include interest earned on the investments of RBI and on holdings of SDRs, and payments include interest and commitment charges on foreign loans, on purchases from the IMF and those on cumulative allocation of SDRs.

Governments, not included elsewhere—The item includes receipts and payments on account of maintenance of embassies and diplomatic missions and offices of international institutions.

Miscellaneous—This item covers, in the main, agency services, technicians and professional services, royalties, film rentals, etc.

Transfer payments—Official transfer receipts represent contra entries for cash receipts and value of aid received in kind from foreign governments and institutions and debits cover contributions to

international organisations and official grants in cash or kind extended to foreign governments. Since April 1964, receipt and payments of pensions on Govt. account are included under this item. Private transfers comprise all unilateral transfers such as migrants, transfers, repatriation of savings, remittances for family maintenance, contributions and donations to religious and charitable institutions etc. Receipts also include imports under P.L. 480, Title 11. Since April 1964, receipts and payments of pension and retirement benefits etc. on private account are also covered under this head.

B. Capital Account

This account presents transfers of money and other capital items and changes in the country's foreign assets and liabilities resulting from the transactions recorded in the current account. These are classified into three sectors : (i) private (ii) banking and (iii) official.

1. Private (non-banking)-These are divided into two categories viz., long-term and 'short-term'.

(a) Private long-term capital. Flows relating to loans, investment in shares and other assets are covered here, and in addition since April 1964 include drawings and repayments on account of loans extended by IBRD and foreign governments to the private sector in India. Drawings in respect of commercial borrowings and deposits received under Non-resident External Accounts and Foreign Currency Non-resident Accounts Schemes, are also included here.

(b) Private short-term capital: covers mainly short-term borrowings and repayments thereof.

2. Banking Capital-Excludes transactions of Reserve Bank of India.

3. Official-Capital transactions on account of Central and State government, public sector undertakings and the Reserve Bank are covered here.

i) Loans-Credits represent utilisation of various foreign loans and credits obtained by the official sector from international financial institution and foreign governments. The entries on the debit side relate to disbursement of official loans and credits extended to foreign governments.

ii) Amortisation-Debits represent repayments of loans on official account and credits relate to repayments by foreign governments of official loans extended to them.

iii) Miscellaneous-Covers all other capital transactions (both long-term and short-term) on government account including the movement in rupee balances held with the RBI by non-resident government, semi-government and international institutions.

(C) IMF-Capital transactions with the IMF are recorded here. Credits comprise the drawals under various facilities of the IMF and the debits represent repurchases from the IMF.

(D) SDR Allocation-Is the counterpart entry to the allocation of SDRs made by the IMF from time to time.

(E) Errors and omissions-This is a reconciliation entry to balance the difference in the total credit and debit entries. These differences arise due to difference in timings and valuation between the two arms of a transaction or their coverage.

(F) Reserves and Monetary Gold-Represent changes in official foreign exchange holding, gold holdings of the RBI and SDR holdings of the Government.

Table 88

Regional Balance of Payments-Current Account-This table provides data on the regional aspect of the current account. The area-wise division of current transactions shown is based on definition of these areas current during the various periods concerned as detailed below :

Sterling Area-All commonwealth countries (excluding Canada and Newfoundland) together with Jordan, Muscat & Oman, Irish Republic and Iceland.

Dollar Area-Covers Salvador, United States of America, Canada (including Newfoundland) Cuba, Haiti, Dominion Republic, Puerto Rico, Virgin Island of the United States, Mexico, Guatemala, Honduras (not British), Nicaragua, Costa Rica, Colombia, Republic of Panama, Panama Canal Zone, Venezuela, Ecuador, Bolivia, Hawaii, Philippines, Liberia and American Samoa. Figures for 1950-51 refer to 'Hard Currency Area' comprising the United States of America, other American Account Countries, Canada, Liberia, Argentina and Japan. The last two ceased to be hard currency countries from January, 1951 and October 1951, respectively. O.E.C.D. Countries-Covers Sweden, Norway, Denmark, West Germany, Netherlands, Belgium, Luxembourg, France, Portugal, Turkey and Spain.

Data are preliminary :

Notes:-

A. I. Merchandise : Credits : Exports f.o.b., Debits : Imports c.i.f.

II. 2. Travel : Data for credits are provisional estimates.

6.G.n.i.e. : Credit include U.S. Embassy expenditure met out of P.L.480 rupee funds.

8.(ii) Transfers : Private : Credits include contra entries for imports under P.L. 480 Title II Programme.

B. 1.(i) Private : Long term : Includes foreign official loans received and repaid by the private sector.

2. Banking : Represents movement in banking capital, excluding R.B.I.

3. (i) Loans : Credits represent utilisation of various foreign loans and credits received by the official sector. Debits cover loans extended by India to other countries.

(ii) Amortisation : Credits cover repayments by other countries of official loans extended to them, while debits show repayments of loans on official account.

(iii) Miscellaneous : Cover other official receipts and payments including these of R.B.I.

C. I.M.F.: Includes purchases and repurchases from the I.M.F. and similar capital transactions.

H. Reserve and Monetary Gold : Represent changes in official foreign exchange holdings gold holdings of the R.B.I. and SDR holdings of the Government.

Exchange rates : 1) Foreign currency transactions have been converted into rupees at the par/central rates upto June 1972 and on the basis of average of the Bank's spot buying and selling rates for sterling and the monthly averages of cross rates of non-sterling currencies based on London market there after.

(2) Beginning with the year 1962-63 merchandise transactions and thereafter all transactions relating to Goa, Daman & Diu are included.

* Includes Rs. 8.3 crores paid to the I.B.R.D. as our contribution to the Indus Basin Development Fund under the terms of the Indus Water Treaty signed on Sep. 19, 1960. Since April-June 1964, these payments amounting to Rs. 13.0 crores in 1966 and 1967 and Rs. 11.2 crores hereafter are included under official transfer payments.

* Includes Rs. 8.5 crores earmarked by the U.S. authorities to finance exports of goods and services to Nepal under their economic aid programme to that country.

@ Beginning with the quarter October-December 1965, the basis for the recording of the exports data was changed from shipments approved during a month to actual shipments in respect of which documents were negotiated during a month.

See other footnotes on page 260 ante.

@ n.i.e: not included elsewhere.

(s) Includes Rs.8.3 crores paid to the I.B.R.D. as our contribution to the Indus Basin Development Fund under the terms of the Indus water Treaty signed on September 19, 1960. Since April-June 1964, those payments amounting to Rs. 8.3 crores in 1965 and Rs.13.0 crores in 1966 and 1967 and Rs.11.2 crores thereafter are included under official transfer payments.

(2) Includes figures of the O.E.C.D. countries also in the year 1950-51.

RAILWAYS

This section includes tables providing statistics of passenger and goods traffic, revenue and expenditure and general working of Indian Railways. The statistics are collected by the Ministry of Railways, Railway Board from various Zonal Railways. Indian Railways are classified as Government and Non-Government Railways. The Government Railways are classified by zones as mentioned below:

(i) Central (ii) Eastern, (iii) Northern, (iv) North Eastern, (v) North East Frontier, (vi) Southern, (vii) South Central, (viii) South Eastern, (ix) Western.

The Indian Railways are also classified by gauges as Broad (1.676m.), Metre (1.000m) and Narrow (0.762m. & 0.610m) according to the distance between two rails in metres mentioned in brackets.

Table 90:

This table, provides the summary results of the general working of Indian Railways. The definitions of various terms used in this table are given below.

Route Kilometres.— This represents the length of the railways route open for traffic at the end of each year. In calculating the length of the route double or more than double lines are counted only once.

Gross Earnings and Working Expenses.— Represent total earnings and expenses of railways in an accounting period irrespective of whether the earnings have been realised or expenses paid. Gross earnings include all earnings from passenger traffic, goods traffic, parcels, luggage and other miscellaneous sources of revenue; while working expenses include all expenses incurred for maintenance of structural works, supply of loco power, carriage and wagon stock, ferry steamers and harbours as well as the expenses of traffic departments, general electric service departments and other miscellaneous expenses.

Train Kilometres.— This represents the kilometres run by trains carrying passengers or goods or both as well as the kilometres run by empty trains. No deduction is made for departmental trains.

Number of Passengers and Metric Tons carried.— The figures represent the number of passengers and weight in metric ton of goods, originating on all railways, treating passengers travelling or goods carried over two or more railways as single journey.

Passenger Kilometre and Net Metric Ton Kilometres.— These figures represent the real indices of the volume of passengers and goods traffic handled. These are arrived at by multiplying the total number of passengers carried and the total metric tons of goods carried by the respective number of kilometres, over which they are moved.

Table 91:

This table provides data in respect of passenger and goods traffic and earning of the Government and Non-Government railways. The number of passengers carried and tonnage of goods carried unlike in table 90, represent total number of passengers and total tonnage of goods carried on individual railways, treating passengers travelling and goods carried over two or more railways as having performed two or more journeys.

Table 92 :

This table presents the capital earnings and expenditure positions separately of the Government and non-Government railways.

Table 93 :

This table provides the results of the financial working of Government railways, showing capital at charge, gross receipts, operating expenses, depreciation fund, reserve fund, net receipts etc.

Table 94 :

This table presents data relating to revenue, expenditure and their net of the railways for which Government is financially responsible. The revenue includes State Railways gross receipts, subsidised

companies miscellaneous receipts, the expenditure includes State Railways' working expenses, subsidy paid to companies, miscellaneous expenditure, dividend on loan Capital and payment to general revenue in lieu of tax on passenger fare.

Table 95 :

This table provides details of gross earnings of Indian railways from passenger and goods traffic.

Table 96 :

(i) This table presents data regarding number of persons killed and injured according to nature of accidents. The figures exclude the persons killed or injured in railway workshops etc.

(ii) The figures are based on accident messages issued immediately after the occurrence of accidents and do not take into account the deterioration in the health of affected persons (i.e., injuries culminating into fatalities) after hospitalisation etc.

(iii) Casualties from causes unconnected with Railway working such as death of passengers in carriages or at stations from natural causes.

CHAPTER 18

MOTOR VEHICLES

Motor Transport in India, is basically a State subject under the Constitution of India. For the sake of uniformity among the states, the Central Government enacted the Motor Vehicles Act, 1939. The State Governments, keeping in view the local needs and circumstances, framed their own rules for administration of this Act. The act lays down laws relating to licensing of drivers of motor vehicles, of conductors of stage carriages, registration of motor vehicles, control of traffic etc. The detailed information on the nature and pattern of the administration of the Motor Vehicles Act in each state is given in the publication "Motor Transport Statistics", brought out by the Ministry of Shipping and Transport.

Table 97 :

Number of Motor Vehicles Registered in India as on 31st March of each year.--The figures shown in the table represent the number of motor vehicles on road and includes only Motor Vehicles taxed for 1951, taxed and tax-exempted upto 1968 and taxed, tax exempted and temporarily withdrawn upto 1972. Thereafter the number of motor vehicles on road includes Motor Vehicles taxed and tax-exempted only. Separate figures for temporarily withdrawn vehicles for the period 1969-72 are not available.

Table 98 :

Central and State Revenue from Road Transport.--(i) State Revenue from Road Transport and (ii) Central Revenue from Road Transport. The Central revenue consists of import duty and excise duty on motor vehicles and accessories, tyres and tubes and motor fuel. The State Revenue consists of motor vehicles taxes and fees levied, sales tax on motor spirits and sales tax on passengers and goods carried. The sales tax on motor spirits are levied at varying rates under varying conditions in the different States. In some cases, the levy on motor spirits made under the Central Sales Tax Act and in other cases special Motor Sales Tax Act. Taxes on passengers and goods carried by road or on inland water ways under entry 56 of List II of the Seventh Schedule of the Constitution of India are levied in Andhra Pradesh, Assam, Bihar, Gujarat, Kerala, Madhya Pradesh, Maharashtra, Karnataka, Orissa, Punjab, Rajasthan, West Bengal and Himachal Pradesh.

Table 99 :

Number of Vehicles plying on Inter-State Routes.-- The figures shown in the table give the number of commercial vehicles (state carriages and trucks) plying inter-state routes with regular permits.

Table 100:

Working of Transport Undertaking of various States.--Almost all the major States of India have accepted nationalisation of bus services as a basic policy and many have nearly taken over the entire private bus transport in their States, with a view to ensuring economy and efficient administration. The nationalisation of road transport is mostly confined to the passenger traffic so far.

(4) Relates to CSTC, Calcutta and NBSTC, Cooch-Bihar (Revenue and expenditure of NBSTC, Cooch-Bihar includes goods transport only).

(5) Relates to DTC, Delhi only.

(a) Data relate to ORTC Berhampur and Cuttack.

ROADS

Table 101

The road length of highways presented in this table, consists of the route lengths of highways running through the length and breadth of the large administrative areas of Districts, States and the Country, connecting all urban areas/centres of traffic.

(a) National Highways is a highway which is declared as such under the National Highway Act, 1956.

(b) State Highways is a highway which is declared as a State Highway by a State Government.

(c) Other Highways are those highways which are maintained by State Public Works Departments (except National Highways and State Highways), District Board/Zila Parishad, village Panchayats and Panchayat Samities/C.D. Blocks.

Table 102

The data on road length shown in this table relate to roads constructed and maintained by municipalities/corporation, CPWD by Railways within railway Colonies, by Port Authority in the Port Areas and others including Military Engineering Service in Cantonment areas.

Table 103

The road lengths given here include the lengths of access roads within project areas for exploiting resources such as forest, hydro-power sugarcane, irrigation, coal, etc.

Table 104

Width-wise Length of National and State Highways-Roads are classified as single lane, double lane or multilane, according as the carriageway width of the roads (other than that in hilly terrain) is below 7 metres, 7 to 10.5 metres and above respectively as per standards laid down by Indian Road Congress.

Table 105

The Shipping and Transport Ministry purchases heavy and sophisticated items of road making machinery for their own use and also loans some items for the use of State government departments. The Central Government also sanctions long term loans to states for purchase of road making machinery. State government purchase on their own all types of light machinery available in the country.

Table 106

The Central Government is responsible for the maintenance of all the National Highways through out the country and for all roads other than National Highways in the Union Territory, all roads other than National Highways in states are the responsibility of State governments. The Central Government makes some provision year after year for the maintenance and improvement of state roads connecting two states or roads of economic importance.

SHIPPING

This section presents tables relating to the strength and tonnage of Indian merchant shipping. The data on strength of the fleet covers ships registered under Merchant Shipping Act, 1958 and the source for the data is the Directorate General of Shipping. The basic source of data for shipping traffic is the respective Port Authorities of Indian Ports. These data are collected and published by the Transport and Research Division of the Ministry of Shipping and Transport and also by the Directorate General of Commercial Intelligence and Statistics.

Table 107

This table shows the strength of Indian Merchant shipping fleet plying for the coastal and overseas trade for relevant ten years. The type wise break up of the fleet into passenger vessels, tankers and dry cargo vessels is also given for the latest year.

Table 108

This table presents the total (imports and exports) overseas cargo handled at the major and minor ports of the country and those handled by Indian flag vessels. Cargo carried to/from a foreign port is recorded as overseas cargo. For the latest year, the break-up of the cargo into those carried by each major port and total of all minor ports is also given.

Table 109

This table provides the data regarding number and net registered tonnage (NRT) of vessels which entered and cleared with cargo and in ballast by the type of vessels namely steam and sailing. Net registered tonnage is defined as the net volume of enclosed space of vessels less crew space, engine room and other space not used for cargo.

Table 110-111

These tables respectively presents data regarding the number and net registered tonnage of vessels which entered Indian ports and which cleared from Indian ports with cargo and in ballast by nationality of vessels.

Table 112-113

These tables present the data regarding the number and net registered tonnage of vessels which entered and cleared with cargo and in ballast respectively by nationality of vessels in coasting trade.

Table 114

This table provides data relating to the number and gross registered tonnage of steamers and vessels (sailing) in foreign and coasting trade handled by major ports in India. Gross registered tonnage (GRT), is defined as the entire internal cubic capacity of a ship. The unit for measurement of GRT is a ton of 100 cubic feet.

Table 115

The table includes data relating to gross tonnage of imports and exports in coastal and foreign trade by major Indian ports.

SHIPPING

CIVIL AVIATION

The section presents tables relating to revenue traffic carried by Indian scheduled operators, namely Air India and Indian Airlines (IA). These two Corporations came into being in August, 1953 on nationalisation of air transport in India. Indian Airlines operates on routes inside India and on international routes to adjacent countries while Air India operates mainly on international routes. The data for domestic and international services have been shown separately. For ensuring international comparability of data, the standards laid down by International Civil Aviation Organisation (ICAO) have been adopted.

The source for these data is the office of the Director General of Civil Aviation, Ministry of Transport, Deptt. of Civil Aviation who published them in their publication "Indian Air Transport Statistics".

Tables 116 & 117

Table 116 presents statistics relating to passengers and cargo traffic carried and operating revenue earned by the scheduled operations in domestic and international services separately. Table 117 presents similar data for Indian non-scheduled operations. Various technical terms used in these tables are defined below :

Hours flown—These figures present the total number of hours flown by planes carrying the Revenue traffic.

Aircraft Kilometres flown—These figures represent the total kilometres flown by planes carrying the revenue traffic.

Tonne-Kilometres Available—The figures are obtained by multiplying the total tonnage offered to the public for air transportation of passengers, freight and mail by the kilometres flown.

Passenger, Freight and Mail carried — The number of passengers carried represents the total number of passenger carried on different air-routes treating passengers travelling by planes for two or more routes as having performed two or more journeys. These figures relating to the weight of freight and mail carried are expressed in Tonnes.

Passenger-Kilometres performed—The figures are obtained by adding up the kilometres travelled by each passenger.

Tonne-Kilometres performed—Represents aggregates based on the product of the tonnage of freight or mail as the case may be, and the distance through which the load was carried. The figures relating to total load tonne kilometres take into account all kinds of traffic including passengers.

Passenger Load Factor—Represents the percentage of passenger kilometres flown to the seat kilometres available.

Weight Load Factor—Represents the percentage of tonne-kilometres performed (passenger, freight & mail) to the tonne kilometres available.

TOURISM

Table 118

Foreign Tourists Coming to India

The Department of Tourism has adopted the following definition as per recommendation of "U.N. Conference of International Tourism, Rome, 1963".

A foreign tourist is a person visiting India on a foreign passport staying at least twenty-four hours in India and the purpose of whose journey can be classified under one of the following headings:-

- (i) Leisure(recreation, holiday, health, study, religion and sport);
- (ii) Business, family, mission, or meeting.

The following are not regarded as "foreign tourists".

1. Persons arriving, with or without a contract, to take up an occupation or engage in activities remunerated from within the country;
2. Persons coming to establish residence in the country;
3. "Excursionists" i.e. temporary visitors staying less than twenty-four hours in the country visited (including travellers on cruises).

Statistics in this publication do not include the following-

1. Nationals of Pakistan and Bangladesh prior to 1981,
2. All foreigners entering India from Bhutan by land,
3. All foreigners entering India through land routes along Indo-Nepal Border.

POST AND TELEGRAPHS

This section presents operating and financial data relating to the different branches of the Posts and Telegraphs department, including the Post Office Savings Banks. This comprises statistics of the number of offices and the length in kilometres of telegraph lines as well as the volume of traffic handled by those offices and/or sent over the wires. It is possible with these data to make a study of the growth of traffic against the back-ground of expansion of facilities and vice versa. These data are collected by the Director-General of Posts & Telegraphs, Ministry of communications and are published in their Annual Report and the Statistical Digest.

Table 119

This table provides the general all India statistics of post offices, namely, number of post offices, letter boxes, postal articles, money orders, etc. This table also provides data regarding the total strength of establishments and length of railways, roads etc. over which the mail was carried.

Table 120

This table presents estimated number of postcards, letters, newspapers, parcels and packets handled by the post offices. The table also presents the actual number of registered, insured and value payable articles. In the case of unregistered postal traffic, it is not possible to maintain day-to-day statistics of the actual number of articles handled by the post offices. The number of unregistered articles is, therefore, estimated from a count of articles in all post offices in India taken during the one week in February (representing busy season) and one week in August (representing slack season).

Table 121

This table, in addition to all India totals for earlier years presents circle-wise information for latest year regarding number of post offices, letter boxes, postal articles, etc.

Table 122

This table as in table 121 provides circle-wise and all India information regarding, number and amount of money orders issued and paid. The data for Indian and foreign money orders are shown separately.

Table 123

This table presents number of post office savings banks depositors and amount deposited and withdrawn.

Table 124

This table provides data regarding receipts and expenditure of Post Offices by heads. Receipts under postage include both sale of stamps and postage paid in cash, i.e., (i) postage prepaid in cash in post offices, (ii) credits afforded in the schedule of customs duty on account of postal redirection fees and insurance fees realised on delivery of inward foreign parcels, (iii) charges for resetting franking machines, and (iv) cash realised for unpaid or insufficiently paid postal articles.

Table 125

This table presents the figures of expenditure of post offices under capital account.

Table 126-128

These tables respectively show summary statistics regarding telegraph lines, telephone lines and telephone offices.

Tables 129-130

These tables show data relating to paid telegraphic messages and telegraphic offices respectively.

Table 131

This table presents data regarding number of radio messages received and sent. Radio telegrams included only the messages sent to ships from coastal offices.

Tables 132-133

The general financial results of the Telegraph Department are presented in table 132 and those of Posts and Telegraphs Department are shown in table 133.

LABOUR

This section presents data in respect of employment, wages and earnings, industrial disputes, industrial injuries and labour training.

Attempts have been made to cover statistics regarding employment under the public and private sectors as far as figures are available.

Table 134

This table relates to all establishments under Central Government, State Governments, Quasi-Government Organisations and Local Bodies. The information is based on the data collected by the Employment Exchange as part of their programme for collection of Employment Market Information on quarterly basis. The information on the number of persons employed at the end of every quarter is compiled by the Directorate of Employment & Training through the Employment Market Information (E M I) Programme. The programme provides for collection, among other things, of employment data in the organised sector, i.e. the entire public sector and non-agricultural establishments employing 10 or more person in the private sector. The data from the private sector establishments employing 25 or more person are collected under the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959. The rest (10-24) are being collected from March, 1966 onwards voluntarily from the employers. The non-response is generally small but employment in such establishment is estimated by the local Employment Officers on the basis of data furnished for previous quarters and included in the overall estimate of employment.

The main changes in coverage are as follows :- Figures in respect of the Union Territory of Goa, Daman & Diu are included for March, 1970 onwards and those for Mizoram from March, 1975 onwards. The 1971 figure for Manipur have been repeated in later years but excluded from March, 1975 due to non-receipt of data. Again from March 1977, the data in respect of Manipur have been included. The figures do not cover Arunachal Pradesh, Andaman & Nicobar Islands, Lakshadweep, Dadra & Nagar Haveli and Sikkim as the EMI data collection programme has not so far been extended to these States/Union Territories. From 1975, data are based on the National Industrial Classification (NIC)-1970.

Table 135

This table relates to employment in Railways. As the regrouping of Government Railways was completed on 14th April 1952 zone-wise information regarding employment in Railways is available only from that year. Information regarding employment in Production Units includes, Chittaranjan Locomotive Works and Integral Coach Factory from 1955, Diesel Locomotive Works, Dandakarnya-Bolangir-Kiriburu Railway Project from 1961, Railway Electrification project from 1966 and wheel & axle plant from 1979 onwards. The employment in Ganga Bridge Project which was shown under works and Projects (Production Units) prior to 1960-61 is now under Eastern Railways as this project was merged with Eastern Railways with effect from 1960-61 and the employment, in Dandakarnya-Bolangir-Kiriburu Railways Project and Railway Electrification Project which were shown under works and project (Production Units) upto 31-3-1968, is now shown under South Eastern Railways as these projects were merged with the South Eastern Railway with effect from 1-11-1968. Besides employment data for Railway Board, data for other Railway Offices including Metropolitan Transport Project (Railways) are also given in this table. Data for non-government railways have been discontinued from 1978, whereas the figures for R.P.S.F. personnel were included under column 13 from 1977 onwards. The employment data include class I to IV permanent and temporary employees.

Tables 136A, 136B, 136C & 136D

The statistics in these tables relate to factories as defined under the Factories Act, 1948. This Act covers factories employing 10 workers or more with the aid of power, 20 workers or more without the aid of power and factories specially brought under the purview of the Act by the State Government. The statistics of employment relate to persons employed directly or through any agency, whether for wages or not, in any manufacturing process or in cleaning any part of the machinery or premises used for a manufacturing process or any other kind of work incidental to or connected with the manufacturing process or the subject of manufacturing process. Thus the definition of worker as laid down in the Act does not cover manual workers alone but some clerical and supervisory personnel as well.

The employment figures represent "average daily employment". The figures of average daily employment are furnished by each factory by dividing the total attendance (man-days worked) during a year by the total number of working days during the year. Thus, the measure of employment is based on actual attendance and not on the physical number of persons on roll. In the case of non-responding factories estimated figures have been given. The reported or estimated figures of average daily employment for all factories belonging to an industry group or a State are summed up to obtain the total average daily employment for an industry group or a state.

The data for 1951 relate to the former Part 'A', 'B' and Part 'C' States. Data from 1956 onwards relate to re-organised States and Union Territories and include estimated information relating to employment in factories not submitting returns whereas earlier figures relate to factories submitting returns only.

Data for 1956 exclude Manipur and Jammu & Kashmir and those for 1961 and 1962 exclude Jammu & Kashmir only.

Figures for 1956 onwards have been demarcated by a deep line in order to indicate non-comparability with earlier figures.

Table 136A presents industry-wise figures of employment in Govt. and Local Fund factories and in other factories. In this table, figures upto 1970 are based on the old classification of industries. As the figures for the years 1971 onwards are being built up for the groups of industries according to NIC 1970, these figures have been given against the group of industries under old classification considered nearest to the new group.

Table 136B provides Statewise data for total employment in all factories.

Table 136C and 136D present data regarding employment in factories according to the NIC 1970. Table 136C provides all-India figures upto 3 digit-level as per NIC-1970 for the years 1971 and latest three years and table 136D gives Statewise data according to major groups of industries for the latest available year.

Table 137

Average daily employment in factories according to three broad age-categories and sex is shown in this table. The information relates to only factories submitting returns. The Factories Act, 1948 defines adult, adolescent and child, as follows:

- (i) Adult is one who has completed 18 years.
- (ii) Adolescent is one who has completed 15 years but not 18 years.
- (iii) Child is one who has not completed 15 years (children below 14 years are not permitted to work)

Table 138

This table presents estimated average daily employment in "Working Factories" using power. The factories employing 10 or more workers and using power are covered under section 2m(i) of the Factories Act, 1948. The statistics presented in the table refer to the set of factories registered under this section.

Table 139

This table provides estimated employment in generation, transmission and distribution of electrical energy. The information on the number of persons employed at the end of every quarter is compiled by the Directorate General of Employment and Training through the Employment Market Information (EMI) Programme, details of which are given in notes to table 134.

Table 140

The table gives information regarding average daily number of workers employed in mining. The mineral-wise break-up of employment in mines is given for 12 important minerals. The method of computation of average daily number of workers employed is the same as given above for tables 135A, B, C & D. Under the statutory provisions of Mines Act, 1952 the Director General of Mines Safety

collects information regarding number of persons employed in mines and quarries (except those specially exempted by Central Government). Upto 1951, the information regarding employment in mines was collected under the Indian Mines Act, 1923 and thereafter it was collected under the Mines Act, 1952. The scope of the Act changes slightly from time to time. For example, by a Notification of March, 1955, a number of hitherto exempted stone, lime-stone and sand excavations were brought under the purview of the Act. The provisions of the Act were extended to the state of Jammu & Kashmir from the 15th August, 1968.

Table 141

This table shows the average daily number of persons employed in tea, coffee and rubber estates. The Directorate of Economics and Statistics, Ministry of Agriculture collects figures of employment from coffee and rubber estates every year through State Governments. The data for employment in tea plantation are based on the publication, "Tea Statistics" published by the Tea Board. The data for coffee and rubber plantations are supplied respectively by the Indian Coffee Board and the Indian Rubber Board. All workers in garden and outside are covered. Accordingly instructions laid down, each estate furnished figures of 'average daily employment' by dividing the total man-days worked during a year by a standard figure of 300 working days. The figures of "average daily employment" for individual estates are added up to obtain the 'average daily employment' for each industry viz., tea, coffee and rubber.

Table 142

Statistics of employment in respect of shops, commercial establishments and restaurants registered under the Weekly Holidays Act, 1942 of Shops and Commercial Establishment Act in the various States are given in this table. These Acts are in force only in certain urban areas covering municipal areas, towns and cantonments, and hence the statistics are limited to shops and commercial establishments in such areas. The employment data are compiled by the State authorities either from the annual returns or from the figures furnished by the employers at the time of registration of the unit under the Act. In some cases the figures are collected specially by the Inspectors appointed under the Acts directly from the individual establishments. The number of shops may be more than the number of workers employed therein due to the fact that shops not employing any workers but run independently by the owners themselves are also covered by the Act.

Tables 143A-143B

These tables show the number of applicants on the live-register of Employment Exchanges. The Employment Exchanges which are under the control of Director General of Employment and Training, Ministry of Labour register names of the persons seeking employment and help them to secure employment. Table 143A gives all-India figures for the period 1960-1973 by broad occupational groups based on old classification (National Classification of Occupation-1958) and table 143B provides State-wise data based on revised National classification of occupation, 1968.

Table 144A

This table gives the number of applicants placed in employment through the employment exchange according to type of establishments namely: (i) Central Government (ii) Union Territory Administration (iii) State Government (iv) Quasi Government & Local Bodies and (v) Other establishments.

Table 144B

This table presents data regarding the number of applicants placed in employment through employment exchanges by category of applicants namely: (i) Ex-servicemen (ii) displaced persons (iii) Bangladesh migrants (iv) women (v) scheduled castes and (vi) scheduled tribes.

Tables 145-147

These tables present data about wages and earnings of factory workers in India. The data are collected under Payment of Wages Act, 1936 and relate to factories defined under clause (m) of section 2 of the Factories Acts, 1948. Earnings include basic wages, dearness allowance, over-time payment, other cash allowances including production or incentive bonus, efficiency bonus, money value of concessions, annual or prepaid bonus and arrears. Prior to 1st April, 1958, the payment of wages Act, 1936, was applicable only to employees earning less than Rs.200 per month. With the enforcement of the Payment of Wages (Amendment) Act, 1957 effect from the 1st April, 1958 the scope of the Act was extended to cover persons earning more than Rs.200 but less than Rs.400 per month. Acceptable returns for this revised wage groups were received only from 1961. The information regarding both wage groups for the years 1961 to 1964 was published in the 1967 issue of this publication. The payment of wages (Amendment) Act, 1976 extends the coverage of the Act to persons earning less than Rs.1,000 per month. The data up to 1975, therefore, relate to persons drawing less than Rs.1,000 per month.

Table 145

Table 145 gives State-wise data regarding total annual earnings of factory workers. Figures in this table exclude information about railway workshops but include that for Defence installations. Tables 146 and 147 present per capita annual earnings of factory workers respectively by States and by industries. The earnings of workers in the seasonal industries which comprise food, beverage, tobacco, construction are excluded from those presented in these two tables.

Table 148

This table presents wages and earnings of mining labour in non-coal mines. The data for coal mines relate to average weekly earning of miners & loaders in December each year, whereas those for other mines relate to average daily earnings of miners & loaders in December each year. The average weekly cash earnings in coal mines are computed by dividing the total payments during any complete working week in the month of December by the average daily attendance during that week. Up to 1965 the average daily earnings for mines other than coal were computed by dividing the total payment for December by the corresponding aggregate daily attendance. From 1966 onwards these are computed by dividing the earnings in the month of December for a week by six.

table 149

This table gives statistics of injuries in factories. Under the Factories act, 1948 statistics of industrial accidents due to which affected persons are prevented from attending to work for a period of 48 hours or more, immediately following the injury, are required to be reported to the Factory Inspectors. For statistical purposes, the number of injuries is given by the number of persons receiving injuries as a result of an accident and this number is more than the actual number of accidents because one accident may result in injuries to more than one person. The data on injuries presented in the table relate only to factories submitting returns. No estimates of injuries can be made for the defaulting factories. The incidence rate of injuries is calculated by dividing the total number of injuries by the corresponding number of workers employed in the factories submitting returns.

Table 150

This table shows number of accidents and number of persons receiving injuries in mines. The data are collected under the mines Act, 1952, which has been recently amended as Mines (Amendment) Act, 1983. Some changes in the definition of serious accident have been brought in. Accident have been classified in to fatal, spot serious and reportable serious. A spot serious accident is one where one or more persons have received "serious bodily injury", which means "any injury which involves, or in all probability will involve, the permanent loss of any part or section of a body or use of any part or section of a body, or the permanent loss of or injury to the sight or hearing or any permanent in capacity or the fracture of any bone or one or more joints or bones of any phalanges of hand or foot". A reportable serious accident is one where one or more persons have received "reportable injury" which means "any injury other than a serious bodily injury which involves, or in all probability will involve, the enforced absence of the injured person from work for a period of seventy two hours or more". Information on reportable serious accidents are collected on a quarterly basis and complete statistics on the same is not available. The statistics for the year 1984 relates to the amended definition of accidents. Data from 1951 to 1967 cover whole of the Indian Union except Jammu and Kashmir.

Table 151

The table shows the State wise distribution of number of disputes, workers involved and number of man-days lost on account of industrial disputes resulting in work-stoppages. The data are collected on a voluntary basis by the State authorities and the Regional Labour Commissioner (Central) who furnish consolidated returns to the Labour Bureau. The figures of number of workers involved relate to the maximum number of workers involved on any day during the course of work stoppage as known upto by the date of reporting. The figures of man-days lost are calculated by adding up actual vacancies caused by the work-stoppage on each working day Scheduled holidays during the period of work stoppage are not taken into account in the calculation of man-days lost.

Table 152

This table shows all-India of industrial disputes by causes of disputes.

Table 153

The data included in the table relate to compensated injuries under the workmen's Compensation Act, 1923 and are based on annual returns received under the Act from State Governments, Post and Telegraphs, and the annual report of the Railway Board. The information in respect of Railways relate to financial year from the year 1967 onwards. Under the Act, compensation is payable to workers employed in scheduled employment and drawing upto Rs. 500 per month for injuries due to accident resulting in death or disablement for more than 3 days provided that it is not caused through the fault of the worker himself. With effect from 1st October, 1975, the wage limit for coverage of workmen under the workmen Compensation Act has been raised from Rs. 500 to Rs. 1,000 per month. As all the

injuries are not compensated, the number of compensated injuries does not reflect the total number of injuries occurring. Further many of the establishments covered by the Workmen's Compensation Act fail to submit returns and hence, information received by the State Authorities about the number of compensated injuries and the amount of compensation paid, is incomplete. In establishments covered by the Employees State Insurance Act, compensation in respect of injuries is paid under the Act and not under the Workmen's Compensation Act. This limitation affects the trend and comparability of the statistics of compensated injuries.

Table 154

The table shows number of training institutes, centres and trainees, etc. The data regarding trainees are given by States/Union Territories and by engineering & non-engineering trades. This table shows progress of the labor training programmes sponsored by the Ministry of Labour.

Table 155

This table presents data on employment in insurance. The information upto the year 1974-75 was collected by the Central Statistical Organisation, Department of Statistics. From 1975-76 onwards, the information has been furnished by the Ministry of Finance in respect of Life Insurance Corporation and General Insurance Corporation but this excludes four State Insurance Companies which account for less than half percent of total employment in the insurance sector.

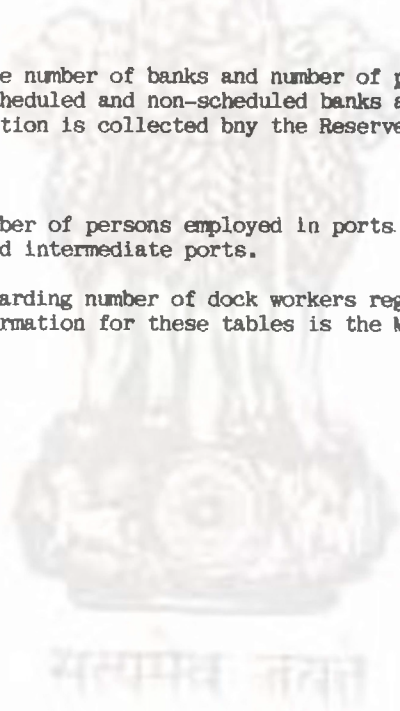

Table 156

The table presents data on the number of banks and number of persons employed in the banking sector separately in respect of scheduled and non-scheduled banks and in regional rural banks and in the Reserve Bank of India. Information is collected by the Reserve Bank of India.

Tables 157A & 157B

These two tables give the number of persons employed in ports in India. Table 157a gives the staff- Strength in major, minor and intermediate ports.

Table 157B shows the data regarding number of dock workers registered with Dock Labour Board- at major ports. The source of information for these tables is the Ministry of Shipping & Transport.

Note:- The figures include estimated employment for non-responding units. Upto and including March, 1965, it covers all establishments in the public sector and non-agricultural establishment employing 25 or more workers in the private sector. Commencing from March, 1966 it covers all establishments employing 10 more workers in the private sector. For detailed notes on scope, coverage, please see the general descriptive notes to tables 134 and 139 at the beginning of the section.

(1) Includes employment data of the 14 Nationalised Banks from 1970.

(2) Establishments employing 25 or more workers. (3) Establishments employing 10-24 workers.

(a) Central and State Break-up is not available.

FACTORY EMPLOYMENT & EARNINGS

(1) RELATES TO WORKERS DRAWING LESS THAN Rs.400/- P.M. FROM 1976 AND ONWARDS DATA RELATES TO WORKERS DRAWING LESS THAN Rs.1000/- P.M.

(1) There may be slight differences in totals due to rounding off of the figures. From 1956 onwards, the data also include the estimated employment for factories not submitting returns. Rough annual estimates of average daily employment for States not submitting returns were 31 thousands for 1956 and 10th thousands for 1961, for 1971 onwards figures are based on NIC-1970.

(a) Includes paper and paper products,

(b) Includes under textiles.

(c) Includes beverages.

Source: Labour Bureau, Ministry of Labour.

NOTE: Totals may not tally due to round off.

(a) Includes estimated figures of employment in factories not submitting returns.

(b) Less than 500.

(c) Figures relate to Bombay

(d) The totals includes 2,424 working factories employing 207

thousand workers in respect of those states for which information has not been given in this table.

(E) Estimated due to non- receipt of returns.

1. Ministry of Agriculture
2. Rubber Board.
3. Tea Board.
4. Coffee Board.

(1) Figures relate to year beginning July upto 1970 and thereafter as on 31st March of the year stated for number of estates, and during the fiscal years ending March of the year stated for employment.

(2) Data for rubber from 1961 onward are not comparable with those of earlier years.

(a) Data relate to Tea & Rubber Plantations only.

(b) Data in respect of average daily number of workers in Karnataka and Tamil Nadu relates to estates covered under the Plantation Labour Act only and hence not comparable with earlier years.

Source : Directorate General of Employment and Training,
Ministry of Labour.

- (a) Increase in the number of employment exchanges during 1966 as shown above was mainly due to reclassification of certain employment and inclusion of ten professional and Executive Employment Offices
- (b) Data relate to service sport and recreation workers (except watchmen, chowkidars, sweepers etc.)
- (c) Data relate to unskilled manual workers.

TRADE UNIONS

Table 158-161

Figures given in this section are based on the annual returns relating to financial years received from the State Governments and Union Territories under the Indian Trade Unions Act, 1926 upto the year 1964-65; and from the year 1965, the returns are being received on a calendar year basis. However, the statistics for the year 1965 relate to the nine months period April to December 1965. The Act applies to the entire Indian Union. The figures relating to the period 1951-52 to 1961-62 do not include Manipur, Lakshadweep, and from 1962-63 onwards do not include Lakshadweep.

The statistics relate to only those unions which have been registered under the Act. It is not obligatory on trade unions to secure registration under the Indian Trade Unions Act. Even among registered unions, about 44 percent of them fail either to submit their annual returns as required under the Act or submit defective returns to the State Authorities, which are left out from the consolidated return furnished by state Governments to the Labour Bureau. The coverage of the statistics (e.g. memberships, finances, etc.) is, therefore incomplete and varies from year to year. Data regarding unregistered unions are not available.

PRICES

This section presents statistics of the following items relating to prices:

- (i) Index number of wholesale prices;
- (ii) Index number of Consumer prices for
 - (a) Industrial workers,
 - (b) Urban non-manual employees, and
 - (c) Agricultural labourers;
- (iii) Index number of Security prices;
- (iv) Spot prices of gold and silver at Bombay.

I- History of wholesale price index Numbers

Office of the Economic Adviser to the Government of India in the Ministry of Industry has been publishing the index numbers of wholesale prices with effect from January 10, 1942 onwards. Details of various series of index numbers of wholesale prices in India published since then along with the changes which were being carried out therein are furnished in the table below :

Index series with base	Number of Items	price quot- ati- ons	Date of introdu- cing the series	Method of Compli- lation	Formula used	Main classification
1	2	3	4	5	6	7
(1) Weaken- ding 1939=100	23	23	Jan. 10, 1942	Geometric Mean	-	(i) Food & Tobacco (ii) Agricultural Commodities (iii) Raw materials (iv) Manufactured articles.
(2) Year ending =100	78	215	Jan. 1947	Weighted Geometric	Laspeyres (fixed wt.)	(i) Food Articles (ii) Industrial Raw materials (iii) Semi-manufactured (iv) Manufactures (v) Misc.
(3) 1952-53 =100	112	555	April, 1956	Weighted Arithmetic Mean	-do-	(i) Food Articles (ii) Liquor & Tobacco (iii) Fuel, Power, Light and Lubricants (iv) Industrial raw materials (v) Manufactures (a) Intermediate products (b) Finished products.
(4) 1961-62 =100	139	774	July, 1969	-do-	-do-	(i) Food Articles (ii) Liquor & Tobacco (iii) Fuel, power. light & Lubricants (iv) Industrial raw materials (v) Chemicals

1	2	3	4	5	6	7
						(vi) Machinery & Transport Equipments. (vii) Manufactures (a) Intermediate products (b) Finished products
(5) 1970-71 *100	360	1290	Jan, 1977	-do-	-do-	I. Primary Articles (i) Food Articles (ii) Non-Food Articles (iii) Minerals II. Fuel, Power Light & Lubricants III. Manufactured products (i) Food products (ii) Beverages, Tobacco & Tobacco products (iii) Textiles (iv) Paper & Paper Products (v) Leather & Leather Products (vi) Rubber & Rubber Products (vii) Chemicals & Chemical Products (viii) Non-Metallic Mineral Products (ix) Basic Metals Alloys & Metal Products (x) Machinery & Transport Equipment (xi) Misc. Products

The consumer price index numbers for industrial workers and for agricultural labourers are computed by the Labour Bureau, Ministry of Labour and are published in the monthly publication "Indian Labour Journal" and annual publication "Indian Labour Statistics". Index Number of Consumer Prices for Urban non-manual employees are issued by the Central Statistical Organisation and are published in their monthly publication 'Monthly Abstract of Statistics'. The Index numbers of security prices in India and spot prices of gold and silver at Bombay are computed by the Reserve Bank of India and are published in their monthly publication 'Reserve Bank of India Bulletin'.

Table 162. This table presents revised (Current) series of index numbers of wholesale prices with base 1970-71=100. A brief description of the scope, coverage and the method of Computation of these series is given below :

II. Current Series of Index number of wholesale Prices with base 1970-71=100.

The current series of index number of wholesale prices with base 1970-71=100, introduced since January, 1977, is based on the recommendations of the 'Working Group on Revision of Index Numbers of wholesale Price in India'. The series contains 360 commodities as against 218 (as redefined) in the previous series. Owing to increasing sophistication of Industrial production, some of the specification of the previous series have been added as items in the revised series with the result that number of commodities included in the previous series have been shown as 218 instead of 139 for comparing it with the revised series. The criteria adopted in the selection of non-agricultural commodities are :

(a) A large number of new industrial items have been included to reflect the strides made by the country in the industrial field, (b) Items with the total value of production of more than Rs. 1 crore as per 1965 ASI data should be included ; and (c) Items of which indigenous output was small but had substantial imports should be included. Actual selection of industrial items, has, however, been based on the response of the principal manufacturers and associations in the matter of furnishing relevant price data.

The number of quotations included in the current series stand at 1290 as compared to 774 in the previous series. Thus, 516 additional quotations have been included in the revised series. Most of the quotations pertain to new industrial items added in the index. The number of quotations under 'Manufactured Products' has increased from 404 in the previous series to 849 in the revised series. As far as possible, specifications and markets for the previous quotations have not been changed unless the specification is no longer representative of the commodity.

System of classification :

In the previous series (base 1961-62=100), commodity classification was based on the Standard International Trade Classification with slight adjustment to suit Indian conditions. In the revised series the Standard Industrial Classification has been adopted to bring about greater uniformity with the classification adopted in some other important indices like Index of Agricultural Production and index of

Industrial Production and also to facilitate comparison of trends in the wholesale price Index with trends of comparable groups and sub-groups of other indices.

In the new classification, commodities are distributed under three major groups, viz., 'Primary Articles', 'Fuel, Power, Light & Lubricants' and 'Manufactured Products'. The major group 'Primary Articles' comprise three groups :

(i) Food Articles (ii) Non-food Articles and (iii) Minerals. In other words, the major groups 'Primary Articles' is broadly comparable with two groups of the previous classification, viz., Food Articles and Industrial raw materials with certain minor adjustments. Sub-groups, such as (a) Edible Oils (b) sugar, gur and allied products (c) Processed food and salt which were being included in the Food Articles under the previous classification are now being shown in the group 'Food products' of the major group 'Manufactured Products' as per the Standard Industrial Classification. Like-wise raw tobacco which featured in the 'Liquor & Tobacco' group in the previous classification is now being shown under 'Non-food Articles'. The 'Non-food Articles' consist of commercial crops and other primary products which come for further processing.

The major group 'Fuel, Power, Light & Lubricants' in the current series consisting of coal, coke, lignite, mineral oils and electricity is broadly comparable with the group 'Fuel, Power, Light & Lubricants' of the previous series except that the current series excludes castor oil and rectified spirit which have been included under the major group 'Manufactured products' in the current series.

The major group 'Manufactured Products' contains 11 groups under which semi-manufactured and manufactured products have been classified. In the previous classification, the group 'Manufactures' was divided into two sub-groups (i) Intermediate products and (ii) Finished products.

Weighting System :

The weights in the current series have been allotted on the basis of value of transactions which of (a) value of marketable surplus in the case of agricultural commodities and value of products for sale in the case of manufactured products, (b) total value of imports (c) total value of import excise duties, if applicable. In the case of manufactured products, gross value of production of the sample sector of Annual Survey of Industries upto three digit level of classification has also been assigned or imputed to the selected commodities depending upon the sub-group/group to which this three digit level industry belongs. In the current series weights between agricultural and non-agricultural sectors have been apportioned on the basis of the average value of aggregate transaction for three years ending 1969-70 to avoid any distortion in the weights. Since the agricultural production is subject to the weather conditions and fluctuates widely from year to year, the allocation of weights among different commodities within the agricultural sector has been done on the basis of the average value among different commodities within the agricultural sector has been done on the basis of the average value of marketable surplus during the three years ending 1969-70 in respect of each commodity. Imports, import duty and excise duty, if any, have also been added.

The allocation of weights among different commodities, sub-groups and groups within the major group 'Manufactured Products' has, however, been done on the basis of production during a single year 1968-69, inclusive of excise duty and value of imports. Value of products as given in the ASI-1968 Census and sample sectors have been generally utilised for assigning weights.

Collection of prices :

Weekly price quotations for the prescribed varieties on or about each Friday are collected. As regards the nature of price quotations, they represent wholesale transactions in the primary markets for agricultural commodities and generally ex-works, ex-mine and F.O.R. destination prices for non-agricultural items. The ex-works, ex-mine and F.O.R. prices normally correspond to producers' prices rather than to wholesale prices and are inclusive of central excise duty but exclusive of sales tax and other levies. There is no change in the system of price collection between the previous and the current series.

Method of calculation:

The current series is calculated on the principle of weighted arithmetic mean as in the previous series. The price relatives are calculated as the percentage ratios which current price quotations bear to those prevailing in the base period. In other words, the price relative for each variety in a market is calculated by dividing the current price quotations by corresponding base price (1970-71) and multiplying by 100. The commodity index is arrived at as the simple arithmetic average of price relatives of varieties or quotations in different markets. The sub-group, group and the index for the major group is derived at as the weighted arithmetic mean of commodity indices. Similarly, all commodity index is computed as the weighted arithmetic mean of major group indices.

Linking factor:

The current series of index number of wholesale prices with base 1970-71=100 has been introduced from the first week of January, 1977. In order to maintain continuity in the index, it is usual to provide linking factors for the base period in respect of individual commodities, sub-groups, groups and the general index so that the revised series may be compared with the out-going one. However, since there are different methods available for linking any two series, the choice of the method of linking the current series with the previous series has been left to the users.

III. The details about the scope, coverage and method of computation etc., of the current series described in the monograph 'A Note on the Revised Index Number of Wholesale Price in India (1970-71=100)' published by the office of the Economic Adviser in the Ministry of Industry.

Table 163

This table presents the consumer price index number for industrial workers on base 1960=100 by centres. The Labour Bureau is compiling the series in respect of 50 important centres (32 Factory, 10 plantation and 8 Mining) selected from all over the country on the basis of their respective industrial importance in consultation with the various State Governments/Union Territories. The weighting diagrams, for these centres indices were derived from the expenditure data available from the Family Budget Enquiries conducted among sampled working class households at each of the centres, during 1958-59 by following uniform procedure under the guidance Technical Advisory Committee on Statistics of Price and Cost of Living. The selection of markets, shops and outlets for the collection of retail price data at each of the centres, was made on the basis of their popularity among the working class population after making on the spot investigations in collaboration with the respective State Governments and representatives of employers and employees. The methodology adopted in the computation of 1960 based series was evolved after taking into consideration the prevailing international practice. For a detailed note on the scope and method of compilation of these series, reference may be made to the December 1962 issue of the Indian Labour Journal. Indices, in respect of all the 50 centres are being published regularly in the Indian Labour Journal.

The linking factor for estimating the all India 1949 based series from the series based on 1960=100 is obtained by equating 100 in the 1960 based series to 121.54 in the old series Base : (1949=100) in the case of General Index and to 115.74 in the case of Food Group Index. A reference may also be made to the October, 1968 issue of the Indian Labour Journal for a detailed note.

Table 164

This table presents consumer price index number for urban non-manual employees based on the family budget survey of the non-manual employee population, carried out in 1958-59 at 45 selected urban centres of the country. A non-manual employee family for purpose of this survey was defined as one "which derived 50 per cent or more of its income during the reference month from the earnings of its members who are gainfully occupied as employees in non-manual work in non-agricultural sectors". The weighting diagram for the consumer price index at each centre was derived from the expenditure pattern of sample families falling in the income range of Rs. 100-750 per month. These indices, measure the average change in consumer prices over time at a particular centre and can not be used for the comparison of costliness of different centres. For details regarding scope and methodology reference may be made to the August 1966 issue of the monthly Abstract of Statistics, published by the Central Statistical Organisation.

Table 165

This table presents consumer price index number for agricultural labourers on base : 1960-61=100. This series on base: 1960-61=100 replaces the interim series on base: 1950-51=100.w.e.f. Sept. 1964. The weighting diagram is based on the results of the second 'All India Agricultural Labour Enquiry' conducted by the National Sample Survey during August 1956 - August 1957. For details regarding scope and method of construction reference may be made to the November, 1964 issue of the Indian Labour Journal Published by the Labour Bureau.

Table 166

The table presents the series of index number of security prices with base 1980-81=100. The method of computation of the series is described below.

This selection of scrips is generally based upon their activity in the market and the size of their market value. The method of weighting used for the current series is similar to the one adopted for the earlier series. Weights are allocated in proportion to the amount outstanding as on March 31, 1981, in respect of Government and Semi-Government Securities and to the 'total average market value' of Ordinary Shares. For the details regarding the method of compilation of indices for current series with base 1980-81=100, a reference may be made to the article published in the July 1985 issue of R.B.I. Bulletin.

Table 167

This table presents spot prices of gold and silver at Bombay based on quotations supplied by the Bombay Bullion Association Ltd. Yearly prices are the highest/lowest quoted rates during the financial year upto 1970-71 and highest/lowest of closing quotations from 1975-76 onwards. Average prices are worked out from the closing quotations for working days. The nominal quotations for gold and silver are also included while compiling the figures.

- (1) Relate to Gold Bullion upto August 27, 1963, 14-Carat.
Gold upto November 9, 1966 and to Standard Gold from July 10, 1967.
- (2) Prices of Silver relate to .995 fineness.

NATIONAL PRODUCT

The tables presented in this section give the estimates of net national product at factor cost (i.e. national income) of India, obtained by applying product method to as many sectors of the economy as possible; the income method being followed for the remaining sectors. The tables 167 to 170 included in this section present estimates of net national product at factor cost at current and constant (1970-71) prices and other related measures. The methodology and estimation procedure are explained in 'National Accounts Statistics, Sources and Methods, April, 1980 and various issues of the 'National Accounts Statistics', published by the Central Statistical Organisation.

Tables 168 to 169

The estimates of net and gross national product at current and at 1970-71 prices are shown in these tables.

Tables 170 and 171

The estimates of net domestic product at factor cost by industry of origin at current and at 1970-71 prices are given in tables 169 & 170 respectively.

Tables 172 and 173

The estimates of private final consumption expenditure in the domestic market at current and at 1970-71 prices are shown in these tables.

Table 174

The table presents estimates of saving by household sector, private corporate sector and public sector.

Table 175

The table presents estimates of capital formation by public and private sectors. These estimates are prepared by the commodity flow approach separately for construction, machinery & equipment and changes in stocks.

Table 176

The table presents estimates of capital formation at 1970-71 prices.

Table 177

The table presents the factor incomes by broad sectors. The factor incomes have been classified into (i) compensation of employees, (ii) interest, (iii) rent, (iv) profits and dividends, and (v) mixed income of self employed. The last category covers income of own account workers as well as profits and dividends in un-incorporated enterprises.

Tables 178A and 178B

These tables present the estimation of (i) gross domestic product, (ii) gross domestic saving at current prices only, (iii) gross domestic capital formation, and (iv) final consumption expenditure for the public and private sectors and also indicate the percentage share of public sector in each of the aggregates.

CHAPTER 28

NATIONAL FINANCE

The tables contained in this section, show the budgetary position of Central Government & State Government and economic classification of the Central Government Budget.

Tables 179-182

These tables respectively show the Revenue and Capital receipts and expenditure of the Central Government and State Governments. Since the data presented in these tables are in conformity with the revised classification of the various heads, they are not comparable with those presented in earlier issues of the Statistical Abstract.

Table 183

This table gives a summary statement of the revenue and the expenditure on revenue account of Central and State Governments. Revenue comprises proceeds from taxation and other receipt classed as revenue, excluding borrowings, small savings, foreign aid, etc. The expenditure ~~ma~~ from the revenue is treated as expenditure charged to revenue. The net result of above transactions represents the surplus or the deficit for the year on revenue account. The table presents data for the Central Government and those States which correspond to the reorganized set up.

Table 184-186

"Detailed figures of receipts and expenditure respectively on collection of customs, union excise duty corporation tax and taxes on income tax other than corporation tax have been published (in the previous issues of Statistical Abstract) for the period upto 1975-76. These detailed data were being supplied by the office of the Comptroller & Auditor General of India. Consequent upon the Departmentalisation of Accounts, compilation of the above data was discontinued with effect from 1976-77. As a result these tables could not be updated with the data for 1976-77 and onwards. Departmentalisation of Accounts also necessitated revision in the system of classification and presentation of data on the subject. In view of this, the revised tables 184 to 186 have been included in this issue presenting data on annual basis for 1975-76 and onwards as available after Departmentalisation of Accounts from the Central Board of Excise & Customs and Central Board of Direct Taxes.

Table 187

Ever since 1957-58 an economic classification of the Central budget is being prepared by Economic Division of the Ministry of Finance. The system of Accounts given in this table analyses various aspects of the Central Government's transactions vis-a-vis rest of the economy. Some of the significant magnitudes emerging from the analysis are:

- (a) The Central Government's total expenditure;
- (b) The Central Government's final outlays;
- (c) Capital formation out of the budgetary resources of the Central Government;
- (d) Net Capital formation and savings of the Central Government;
- (e) The various measures of deficit in the Central Government's budgetary transactions; and
- (f) Income generation by the Central Government.

INCOME TAX

Statistics presented in this section relate to the Income-tax assessments. The figures refer to regular assessments made under the Income-tax Act and do not include demands raised on provisional assessments to miscellaneous demands like penalties, interest, etc. Figures of taxes represent the demand raised and not the collections actually made against those demands. The Statistics for the year 1970-71 are not given as these have been kept in abeyance for the present by the Directorate of Inspection (RS & PR).

Table 188-189

These tables analyse the demand for Income-tax according to the different status of assessee viz., (i) Individuals, (ii) Hindu Undivided Families, (iii) Unregistered Firms & Associations of Persons, (iv) Registered Firms, and (v) Companies. The statements are designed to show the number of assessments, income assessed, tax demand (including surcharge) and net income left in the hands of assessee after payment of tax. Table 188 presents All India series showing the figures according to various ranges of income assessed for the latest year 1982-83 and the data regarding total of all income-ranges for 10 years. Table 189 provides State-wise data for total of all income ranges for the latest year.

The number of assessments shown are in respect of those assessments which were completed during the year. Normally, there is one assessment form for one assessee for one assessment year. Accordingly, in cases where an assessee is assessed during a financial year for various assessment year, separate assessment forms are prepared for that assessee for each of the assessment year.

Table 190

The table analyses number of Assessments, Gross Income and Gross Tax for the Financial year 1982-83. An assessee having income from more than one source is included under each one of the sources from which the income is derived.

Table 191

This table presents amount of Income-tax including surcharge payable in selected cases of income and its percentage incidence for the assessment year 1985-86.

Table 192

The table analyses the number of Assessments, Gross Income and Gross tax from Business and Profession by nature of Industry (Including Companies and non-companies) for the year ending 31st March, 1983.

EXCHANGE, COINAGE & CURRENCY

This section presents data on exchange and money rates. Price of bullion and government securities, coinage and currency. The sources of data regarding coinage are the Mint Masters of the Bombay and Calcutta Mints and for the other tables the Reserve Bank of India.

Table 193

This table provides data regarding Money Rates in India which are defined as the rates at which the various classes of banks in the country are prepared to discount or rediscount bills of exchange, to give loans and advances, or to accept deposits. Various money rates mentioned in this table are described below :

Reserve Bank of India

Bank Rate.— The standard rate at which the Reserve Bank of India is prepared to buy or re-discount bills of exchange or other commercial paper eligible for purchase under the Reserve Bank of India Act, 1934. The Reserve Bank's first official Bank Rate, viz., 3.5 per cent was announced on July 4, 1935 and this rate remained unchanged till November 28, 1935 when it was lowered to 3 per cent. The Bank rate was changed to 3.5 per cent on November 15, 1951, to 4 per cent on May 16, 1957, to 4.5 per cent on January 3, 1963, to 5 per cent on September 26, 1964, to 6 per cent on February 17, 1965, to 5 per cent from the close of Business on March 2, 1968, to 6 per cent with effect from the close of Business on January 8, 1971, to 7 per cent with effect from the close of Business on May 30, 1973 and to 9 per cent with effect from the close of business on July 22, 1974.

State Bank of India

Discount Rate.— The rate at which the State Bank of India discounts first class three month commercial bills.

Advance Rate.— The Bank's prime lending rate which regulates all interest rates for the various categories and classes of advances granted by the Bank.

Demand Loan Rate.— Basic advance rate at which the State Bank of India grants demand loans to scheduled commercial banks against Government securities. Call loans to co-operative banks against Government securities are granted at a rate lower than call loan rate to other commercial banks.

Other selected major Scheduled Commercial banks

Call Money Rate.— Relates to inter-bank advances repayable on call at the option of the lender. Deposits requiring prior notice of any type for repayment are not included while over-night deposits are included.

Bazar Bill Rate.— Rate at which bills of small traders are reported to have been discounted by shroffs. These are unofficial quotations supplied by the State Bank of India.

Table 194 & 195

Prices of Silver and Gold .— Relate to spot quotations showing highest, lowest average prices of silver in London, New York and Bombay and of Gold in Bombay. Average prices are the average of closing quotations for working days. The spot prices of gold relate to Mysore gold up to July 13, 1958, Abyssinian gold from July 14, 1958 to July 31, 1959, gold bullion from August 1, 1959 to August 27, 1963, 14 carat gold thereafter upto November 9, 1966 and standard gold from July 10, 1967. Forward trading in gold was banned throughout the country with effect from November 14, 1962 and that in silver from January 10, 1963.

Table 196

Number and value of coins minted—Figures relate to coins minted by India Government Mints, Bombay and Calcutta. Indian mints have also minted coins for foreign countries like East Africa, Ceylon, Bhutan, Malaysia, Straits Settlements, Iraq and Egypt, the figures for the number and value of which are shown in brackets. Coins have been classified according to their metal content as described ahead.

Pure Nickel.—Includes rupee, half rupee and quarter rupee coins. However, with the introduction of metric system, pure nickel 25 naya paise and 50 naya paise were first struck in 1957-58 and in 1960 respectively. This also includes 1 Rupee and 50 paise coins struck in 1964 (in English) and 50 paise only in Hindi in November 1965 in commemoration of Shri Jawaharlal Nehru and 1 rupee and 50 paise coins introduced in October, 1969 in commemoration of Mahatma Gandhi Birth Centenary.

Nickel Brass.—Includes one naya paisa coins from 1961-62 upto 1965-66 and then discontinued
Cupro-Nickel.— Includes 10 naya paise, 5 naya paise and 2 naya paise and 2 naya paise introduced on 1st April, 1957.

This also includes 50 paise and 25 paise introduced in January, 1972 and 50 paise commemorative, coins introduced on the occasion of the 25th Anniversary (Silver Jubilee) of India's Independence in August, 1972 in addition to 50 paise coins with development oriented designs introduced on 15 August, 1973. This also includes 2 Rs (8 gr.—Asiad) 50 P. Asiad coins introduced on 3-12-82 and 1 Re. 6 gr. N1 and 50P. (National Integration) coins introduced on 20-12-82.

Bronze.— Includes single piece and one naya paise pieces. Naya paise pieces. Naya paise coins were introduced on 1st April, 1957.

Aluminium Magnesium.—Coins of this metal were first introduced in 1964-65, and it includes. 1 paise, 2 paise, 3 paise and 5 paise coins. 1 paise coins were introduced in October, 1965, 2 paise coins in July, 1965 3 paise coins in October, 1964 and 5 paise coins in January, 1967 and 10 paise coins in October, 1971 and also including 10 paise "Development oriented Family Planning—Food for All" coins introduced from the 15th August, 1974. This also includes 20 P. (2.2gr.) and 10P. (1.75gr.) (National Integration) introduced on 12-10-82.

The term 'Naya paise', was changed to 'Paise' from 1st June, 1964.

Aluminium Bronze.—Includes 10 paise and 20 paise coins introduced in December 1968, Also includes 20 paise coins introduced in October, 1969 in commemoration of Mahatma Gandhi Birth Centenary and also to mark the 25th anniversary of the Establishment of Food and Agriculture Organisation in October, 1970.

Silver— alloy.—includes 10 rupee coins introduced in commemoration of Mahatma Gandhi Birth Centenary in October, 1969 and to mark the 25th anniversary of the establishment of Food and Agricultural Organisation in October, 1970. This also includes 10 Rupees commemorative coins minted on the occasion of the 25th Anniversary of India's Independence in August, 1972 in addition to the denomination of Rs. 20 and Rs. 10 coins with development oriented designs introduced on 15th August, 1973.

Table 197

Statistics of Note Circulation in India.— Figures are as on the last Friday of March each year except for 1982-83 where figure relate to March 31.

Notes in Circulation.—Comprise the notes held outside the Reserve Bank, i.e. by the public banks, treasuries, etc. One rupee notes and coins issued by the Government of India are excluded.

Gold coin bullion and foreign securities.—As required in Section 33(2) of the Reserve Bank of India Act, the aggregate value of the gold coin, gold bullion and foreign securities held in the Issue Department at any time should not be less than Rs. 200 crores. Of this, the aggregate value of the gold coin and gold bullion should not be less than Rs. 115 crores.

Foreign Security.—Represents securities payable in the currency of any foreign country which is a member of the International Monetary Fund.

Rupee Coin.—Represents the face value of the whole rupees held at the offices of the Issue Department of the Reserve Bank of India and in currency chests at offices and branches of the Bank and its agencies and sub-agencies including Treasury agencies. Since July 1940, rupee coin holdings include one rupee notes issued by the Government of India under the Currency Ordinance, 1940. Mahatma Gandhi Birth Centenary ten rupee silver coins and World Food & Agriculture Organisation commemorative ten rupee silver coins and Independence Day Silver Jubilee ten rupee coins issued by the Government of India in October, 1969, October, 1970 and August, 1972 and two rupee coins issued since November 1982.

Government of India rupee Securities.—These are securities of any maturity issued by the Central Government in respect of public loans and also include rediscounted treasury bills and Government of

India adhoc treasury bills issued to the Reserve Bank. The securities are valued yearly at the market rates on the last working day of the month of June.

Table 198

Money Stock Measures (M) consist of currency with the public (notes and coins in circulation cash in hand with banks) and deposit money of the public.

Notes.—Comprise the notes issued by the Government of India upto April 1935 and the Reserve Bank since then, less the notes held in the Banking Department of the Reserve Bank. These comprise therefore, the notes held outside the Reserve Bank i.e. by the public, banks, treasuries, etc. They include Indian notes in circulation outside the Indian Union but are net of Rs.43 crores of Indian notes returned from Pakistan awaiting adjustment.

Rupee coin.—Relates to quaternary rupees, nickel rupees, and cupro-nickel decimal rupee coins and Government of India one rupee notes which are treated as rupee coin. These also include Mahatma Gandhi Centenary ten rupee silver coin from October, 1969, World Food and Agriculture Organisation Commemorative Ten Rupee silver coin from October, 1970, Independence Day Silver Jubilee Ten Rupee Coins from August, 1972, and two rupee Coins from November 1982. As in the case of notes, holdings in the Banking Department of the Reserve Bank of India are excluded, but rupee coin held by Government Treasuries as part of Treasury balances and those held by banks have been included. Figures are also net of an estimated amount of rs.15 crores of Indian Rupee Coin in circulation in Pakistan.

Small coins.—

The circulation of small coins as presented in table 198 includes also small coins held by the Government, Treasuries and banks. As in the case of rupee coins, holdings of small coins in the Banking Department of the Reserve Bank of India are excluded. Figures relate to the last day of the period.

Balances held at Treasuries.—Comprise cash balances of Central Government (including centrally administered areas) and all State Governments consisting of notes, rupee coin and small coins. These data relate to the end of the period.

Cash in hand with banks.— Relates to such holdings of commercial and co-operative banks coming under the purview of the Banking Regulation Act, 1949.

Deposit Money.— Consists of (i) Demand deposits with banks and (ii) other deposits with Reserve Bank. Demand deposits with banks represent demand deposits with all the commercial and co-operative banks.

Other deposits with Reserve Bank.— Include all miscellaneous items such as deposits of quasi-government institutions, amount of cheques in course of collection, balances of foreign central banks and Governments, the International Monetary Fund (Account No.2) and the International Bank for Reconstruction and Development but exclude (i) balances held in IMF Account No. 1 as the account is not intended to be currently drawn upon, (ii) Reserve Bank of India Employees' Provident Fund—Pension Fund and Co-operative Guarantee Fund, (iii) The amounts collected under the Compulsory Deposit scheme and (iv) Some extra ordinary items.

Table 199

Absorption of small Coins.—Figures relate to the Indian Union.

Note:—Figures for 1971 onwards are based on new decimal currency system.

Figures in brackets indicate the price according to old rates.

(1) The prices of Silver in London and New York per gram are obtained, using the conversion factor 1 fine ounce=31.10grams spot quotations for Silver at Bombay relate to 0.999 fineness upto 13th December, 1953 and thereafter to 0.996 fineness.

(2) Data for Bombay relate to the year ending March of the year stated, while those for London and New York markets relate to calendar year.

Table 195—SPOT PRICES OF GOLD IN BOMBAY

year	Gold (per 10 Grams)		
	Highest	Lowest	Average
1	2	3	4

NOTE:—(1) Data are exclusive of balances held in Banking Department.

(2) Data relating to return of Anna-Pie coins have not been taken into account due to non-availability of comparable data for some periods. Error on account of this is negligible.

CRIME STATISTICS

This section includes tables providing statistics of crime in India. The statistics are collected by the Bureau of Police Research & Development, Ministry of Home Affairs from the Police Authorities of the State Governments. All India information relates to the sum-total of available data of States only and is, therefore, subject of revision.

Table 200

This table presents the incidence of IPC crimes under important heads of crime. The incidence of theft includes cattle theft and ordinary theft. The incidence shown under 'other' includes kidnapping and abduction, criminal breach of trust, cheating, counterfeiting and miscellaneous crime.

Tables 201 & 202

These tables provide statistics of cognizable crimes classified by cases and by persons separately. Table 201 gives the disposal of cases by courts and table 202 gives the disposal of persons by courts.

Table 203

This table gives information relating to 'Recidivism-total cognizable crime'.

Table 204

Information relating to value of property stolen and recovered is given in this table.

Table 205 to 210

These tables present data relating to juvenile delinquency in India.

Table 211

Information relating to number of persons arrested under important heads of crime and classified according to sex, is given in this table.

Table 212

This table presents number of cases reported due to various motives of murder and culpable homicide not amounting to murder.

Tables 213 & 214

The actual strength both armed and civil police, as on 31st December of the year stated, under different ranks, is furnished in table 213. The information relating to civil police also includes district armed reserved police. Table 214 gives information relating to area and number of persons served by police force.

ACCIDENT STATISTICS

This section presents tables relating to accidental deaths and suicides in India. The source for these data is the Bureau of Police Research & Development, Ministry of Home Affairs, which obtains information from Police Authorities in different States. All-India information relates to the available States only and is, therefore, subject to revision.

Table 215

This table shows the incidence of accidental deaths in different States, Union Territories and important cities. The causes of accidents have been classified into two broad categories viz. (i) accidents due to acts of God such as lightening, heat strokes, landslides, etc. and (ii) accidents due to other causes as mishaps in factories, air crashes, railway accidents, etc.

Table 216

This table presents statistics of suicidal deaths classified according to sex and age-group and also by causes of suicides. Among the causes of suicides despair due to dreadful diseases, quarrel between married partners and with parents-in-law, and love-affairs, are some of the major causes.

ACCIDENT STATISTICS

EDUCATION

The academic year for the tables in this section taken to coincide with the financial year, ending 1st March. The data for 1973-74 have not been finalised by the Ministry of Education and Social Welfare.

Table 217.

This is a summary table giving data regarding educational institution, scholars and expenditure on education. Thus this table gives a general idea of the educational development in the country from 1950-51 onwards. Direct expenditure means expenditure directly connected with the maintenance of an institution viz. salary of teachers and other recurring expenditure. Indirect expenditure means all expenditure on inspection, direction, buildings, furniture, scholarships and other miscellaneous items. Its nature is such that it cannot be apportioned to each type of institution.

Table 218

This table shows the number of recognised educational institutions by various types.

Table 219

This table gives number of scholars by stages of instruction broadly categorised as below :

- (i) Colleges for general education.
- (ii) Colleges for professional and special education.
- (iii) Schools for general education.
- (iv) Schools for vocational/professional education.
- (v) Schools for special education.
- (vi) Schools for other education.

Special education includes mainly reformatory schools, schools for handicapped and jail schools. Institutions for fine art including music and dancing and social work which were formerly included under special education, from 1964-65 were included under professional education. Institutions of adult education and oriental studies have been included under other education.

Table 220

This table shows the number of institutions and scholars in rural areas i.e. the areas outside limits of municipal, cantonment and notified small-town committees.

Table 221

This table gives the expenditure on educational institutions by sources from which the finances are drawn. The sources of finances are mainly Government funds, Districts Board funds, Municipal funds, fees and endowments, etc. In calculating the expenditure from Government, District or Municipal Board, funds all payments or contributions from fees or other sources, which are credited to these funds are deducted.

Table 222

This table shows direct expenditure by type of educational institutions and indirect expenditure on all educational institution. Indirect expenditure represents the amount incurred on direction, inspection, buildings, furniture, scholarships, hostels and other miscellaneous items.

Table 223

This table shows the number of total and women teachers engaged in teaching at different stages of education in recognised institutions, viz. primary, secondary and also in technical and special schools and in colleges and universities. Teachers in schools for general education are classified as trained and untrained.

Pondicherry	13	174	279	71	5	2	-	544

(4) Includes Post Basic, Higher Secondary, Higher Senior Basic and Middle Schools.

(5) Includes Junior Basic, Basic Primary, Single teachers Primary & Primary Others.

(6) Includes Universities & Boards of Examination.

(i) Owing to the grouped presentation of data on schools for vocational, professional and other education, since 1964-65 by Ministry of Education, detailed break up on schools such as Teachers' Training, Medicine and Veterinary Science, Handicapped and Adult (Social) Education, etc. has to be discontinued. Details for the years upto 1960-61 are, however, available in the earlier issues of the abstract.

(j) 15 Colleges have been closed in Orissa and 76 in U.P.

(h) Decrease in the number of Vocational Institutions is due to upgrading of 14 Industrial Training Institutes to U/G level in Punjab.

(1) Excludes Social Adult Education Centres.

(1) Figures for year 1950-51 to 1971-72 are included in totals in cols.38 & 39 and from 1976-77 onwards includes Business Management and other Commerce diplomas.

(2) Does not include enrolments of B.Com. for the years 1950-51 to 1975-76.

(3) Does not include enrolments of M.Com. for the years 1950-51 to 1975-76.

(4) Does not include enrolments of research in commerce for the year 1950-51 to 1975-76.

(a) Decrease is due to inclusion of enrolment of 44,362 (36,171 Boys+8,191 girls) students inadvertently in General Education though it was for Typing and shorthand in respect of West Bengal.

Pondicherry	460	573	346	437	589	287

NOTE :- Literacy rates for 1951, 1961 and 1971 are not comparable with 1981 census as these rates have been worked out on the then jurisdiction which was in existence.

(1) Excludes population in age group 0-4.

(a) Excluding Jammu & Kashmir, Pondicherry and North-East Frontiers agency (NEFA).

(*) Excludes population of that portion of NEFA where All India Census scheduled was not canvassed.

NEWSPAPERS & PERIODICALS

Tables 226 to 228

This section presents information in respect of newspapers and periodicals which is based on the data collected under the authority of the Press and Registration of Books Act and are available in the Annual Report of the Registrar of Newspapers for India namely "Press in India". The definitions of the terms used in the tables in this section are given below:-

Newspaper :	.	.	.	Newspaper means any printed including cyclostyled periodical work containing public news or comments on public news :
Periodical :	.	.	.	A newspaper appearing at an interval of a week or more.
Other Periodical	Periodicals other than daily, tri-weekly, bi-weekly, weekly, fortnightly, monthly, quarterly and annual.
Periodicity	Time gap between two issues of newspaper (daily, weekly, fortnightly, monthly, etc.)
Daily	A newspaper issued at least four times a week.
Circulation :	.	.	.	Average number of copies sold and distributed free per publishing day.
Other languages :.	.	.	.	Languages other than the printed languages included in the 8th Schedule of the Constitution of India and English.

PUBLIC HEALTH STATISTICS

Available information concerning public health statistics in India, is shown in the tables under this section. Data in greater detail are published by Ministry of Health & Family Welfare, Government of India and the various state authorities in the form of periodical reports. The information relates to all of the Indian Union, unless otherwise specified. The figures for the latest available year are shown in greater detail. Corresponding figures for the earlier years are shown in totals only.

Table 229

This table shows the number of hospitals and dispensaries together with the number of patients treated indoor and outdoor and the number of beds available.

Table 230

This table gives the actual number of medical practitioners in 'Allopathy', registered with the 'Medical Councils' in the states. Information relating to states, where there are no 'Medical Councils', has not been included.

Table 231

This table gives the actual number of nursing personnel registered with 'Nursing Councils or Boards' according to different categories.

Table 232

Number of patients treated and the number of deaths in hospitals by disease for different States are given in this table. This classification of diseases has been brought into conformity with the International Classification since 1956. The number of patients treated relates to both indoor and outdoor. The number of deaths relates to indoor patients only.

The data from 1979 onwards is given for the diseases covered in the IXth Revision of the International Classification. Accordingly Enteric fever; Dysentery and Typhus and other reckettsioses diseases have been deleted and instead five heart diseases as included in IX revision have been added namely-Acute rheumatic fever; Chronic rheumatic heart disease; Hypertensive heart disease; Ischaemic heart disease (Acute myocardial); and diseases of Pulmonary circulation and other forms of heart diseases.

Table 233

Data concerning mental hospitals (state-wise) are shown in this table. For the column on patients discharged, only total number is given and the break-up by cured and otherwise are not shown. But a column showing number of beds is given.

Table 234

The figures of Family Welfare Statistics, given in the table are based on the information received from the various States/Union Territories and as compiled by the Department of Family Welfare. While working out the rates per thousand population by methods, the mid year population has been estimated in the light of 1971 census for the year 1965-66 and 1970-71. From 1975-76 onwards, the mid year population has been estimated in the light of 1981 census.

Number of conventional contraceptive users is worked out by dividing the off-take of contraceptives by the average number necessary for a couple for use in any year (Condoms: 72 Diaphragm: 2, Jelly/Cream Tubes : 7 and Foam Tablets 72).

PUBLIC HEALTH STATISTICS

Note : From 1975-76 onwards, Inter-census yearly estimates of population were revised in the light of population figures of 1981 census and estimates of population as on 31st March, 1982 were extrapolated.

(a) January 1965 to March 1966.

(b) Relates to conventional contraceptives users and oral pill-users from 1975-76 onwards.

(c) Includes Nirodh pieces supplied directly by IDPL/UPDPL in the Health Guide kits to the States.

(d) Includes 103,5000 c. ca users under full cash commercial sales of condoms.

HOUSING

This section contains information on housing in India. Tables, 235, 236 & 240 are based on data collected in the National Buildings Organisation, Ministry of Works & Housing. Table 237 is based on National Sample Survey, 22nd round (July 1967-June 1968), Report No. 171 and 23rd round (July 1968-June 1969), Table 239 is based on NSS 18th round (February '63-Jan. '64), Report No. 170 and 15th round (July 1959-June 1960) and Report No. 146 issued by the Department of Statistics, Government of India. Table 238 is based on data collected at the house listing operation of the Population Census of India 1971 and National Sample Survey 19th round (July 1964-June 1965) Report No. 195.

Table 235(a) and 235(b)

These tables give data on 'Investment in residential and non-residential buildings' during 1980-81 by various Central and State Public Sector agencies including Public Undertaking for each State and Union Territory.

The data relate to 50 Divisions out of 77 construction divisions of C.P.W.D., Central Public Sector Undertakings including nationalised banks, RBI and Port Trusts, etc. 2 manufacturing units and 6 zonal railways. The coverage in M.E.S. was about 5/4th and in P. & T. about 37. In regard to State sector, data relate to 12 states and 2 Union Territories, whose coverage is too, not full.

Railway and some other Central agencies do not provide statewise break-up of the investment on construction and, therefore, the total investment by these agencies shown separately under the head 'Buildings by other agencies'.

Table 236

The table presents for each State and Union Territory the construction rate of dwellings of different types 'completed' during 1980-81 and 'in progress' at the end of 1980-81 for various Central and State Public Sector agencies including Public Undertakings. The coverage of data is the same as in table 235(a) and 235(b).

Table 237

The table presents for each State and Union Territory the construction rate of estimated number of pucca houses completed per thousand of rural population according to size of the village.

A pucca house is one whose walls and roof are at least made either of oven-burnt bricks, stone, cement, concrete or timber. Tiles, galvanised iron and/or asbestos cement used in the construction of roof were regarded as pucca material. In some states, such materials as cement plastered reeds, called jack board are used for construction of wall, roof etc. These materials were also regarded as pucca materials.

The table is based on data collected by the National Sample Survey Organisation in its 22nd and 23rd round in NBO's sponsored scheme on 'Survey of dwellings in rural areas'.

Table 238

The table provides number and average size of households, number of dwellings, number of room per household, distribution of household according to the size of dwellings and number of persons per room. This table is based on 20% sample of data collected at the house listing operation of 1971 census. The density of occupation is based on the National Sample Survey Report No. 195 (July '64-June '65).

Table 239

The table gives data about housing condition and amenities available to urban and rural household

and condition of structure, age of structure, facilities of piped water, electricity, bathroom and toilet. The table is based on data collected by National Sample Survey in fifteenth and eighteenth rounds for age of structure and bathroom facilities and 28th round for other.

Table 240

The table indicates number of building permits and completion certificates issued in municipal areas in private sector. The series have been built up from 1961 onwards. For the years 1961 and 1966 data relate to private construction in municipal towns with population of 75,000 and above as per 1961 census. From 1971 onwards, data relate to all municipal towns with population of 1,00,000 and above as per 1971 census. For the towns for which data were not available, the number of building permits/completion certificates issued have been estimated by applying the average rate of the last three years relating to the concerned state.

NOTES:-

Source: National Buildings Organisation, Ministry of Works & Housing.

1. Up to the end of year 1970, data relate to private construction in municipal towns with population of 75,000 and above as per 1961 Census. From 1971, data pertain to all municipal towns with population of 1,00,000 and above as per 1971 Census.

2. There is no major town coming under the coverage given above in Himachal Pradesh, Nagaland,

A. & N. Islands, Arunachal Pradesh, Dadra & Nagar Haveli, Goa, Daman & Diu, Lakshadweep,

Mizoram and Pondicherry. Hence these States/Union Territories are not included in the above Table.

3. Estimates are based on replies to a main questionnaire issued to the municipalities. In case of non-responding municipalities, estimates have been arrived at by applying the average rate for the last three years relating to the concerned state.

* For 1961 to 1965, data for Haryana and Chandigarh are included in Punjab.

LOCAL BODIES

The term 'Local Bodies' refers to such institutions of Government which carry on the local affairs viz., Corporations, Municipalities, Notified Area Committees, Town Area Committees, District Boards, Panchayat etc. This section, however, presents data regarding income and expenditure of Municipal Corporations only. The information has been supplied by the individual Corporations.

Municipal Corporations are relatively the most developed form of local Self Government and have generally been established in metropolitan areas or big cities. By and large these have been constituted under specific legislative enactment. With growth of cities, Corporations have been established in number of towns. They have wider powers and they enjoy more autonomy than the other local bodies. The chief executive authority of a Corporation is the commissioner who is independent of the elected body. The Corporation elects its Mayor and Deputy Mayor out of the elected members.

Table 241

This table provides data regarding income of a Municipal Corporation by financial resources, namely (i) tax revenue and (ii) non-tax revenue. The tax revenue, by and large, consists of the taxes on

- (i) Property
- (ii) Service
- (iii) Octroi
- (iv) Terminal
- (v) Trade & Callings
- (vi) Animals and Vehicles
- (vii) Toll
- (viii) Miscellaneous

The Non-tax revenue generally comprises the following items:

- (i) Government grants
- (ii) Rents from municipal properties
- (iii) Revenue from municipal utilities and undertakings
- (vi) Licence and various other fees including those from municipal institutions
- (v) Interest on municipal investments, and
- (vi) Fines.

Table 242

This table presents data about the expenditure of the Municipal Corporations which generally comprises the following items:

- (i) General Administration & Collection of Revenue
- (ii) Public Health
- (iii) Safety and Convenience
- (iv) Education
- (v) Public Works
- (vi) Miscellaneous

Table 243

This table gives the number of panchayats, panchayat samities, zila parishads and villages covered under panchayati raj as on 31st March of the year stated. The rural population covered by these local bodies has also been shown.

Table 244

In this table data on number of C.D. blocks allotted and their coverage are given as on 2nd April of the year stated.

(1) In Assam, Panchayat Raj bodies were established under the new Act of 1972 on 14-5-74.

(2) There is no Panchayat Raj Institutions.

(a) District Development Councils;

(b) Commune Panchayats;

** Stands Superseded.

ELECTORAL STATISTICS

This section provides results of the election to both Houses of the Parliament and to the State Legislative Assemblies and Councils, bringing out broadly the salient features of the electorate in the country.

Under the Indian Constitution there shall be a Parliament for the Union of India consisting of the President and two houses to be known respectively as the Council of States (Rajya Sabha) and the House of People (Lok Sabha). Similarly in each State there shall be a legislature consisting of either one House known as the Legislative Assembly (Vidhan Sabha) or two houses known as the Legislative Council (Vidhan Parishad) and the Legislative Assembly (Vidhan Sabha). The election to the House of People and to the Legislative Assemblies of every State shall be on the basis of Universal adult suffrage; that is to say every person who is a citizen of India and has attained the age of 21 years, if not otherwise disqualified, shall be entitled to be a voter at any such election.

The Legislative Assembly of each State is to be composed of members chosen by direct election. The total number of members in the legislative Assembly of State shall not in any case be more than 500 or less than 60. The strength of the electoral college of the Union Territories is laid down in the provisions of the Representation of the People Act, 1950.

Representation in the Legislative Council of each State, where there is such a Council will be confined to Local Authorities, University Graduates and Teachers, Nominees of the Government and elected representatives of the Legislative Assembly.

Tables 244 & 246

These two tables show the number of voters and seats in each State for the purpose of election to the House of People and the Legislative Assemblies respectively.

In these two tables, Col. 3 shows total number of electors (Voters) in all constituencies whereas col. 4 shows the number of votes polled. The percentage of votes polled to total votes in contested constituencies is shown in Col. 6. This indicates the extent to which the voters exercised their franchise. The difference between "votes polled" and valid "votes polled" shows the number of votes which were polled either wrongly or were rejected.

Table 245

This table is being introduced to depict the composition/allocation of seats in the Rajya Sabha.

Table 247

This table shows the number of seats in the Legislative Council and the number of constituencies in the State Legislative Council for the purpose of the election.

Table 248

This table shows Statewise number of valid votes polled, percentage of valid votes polled and seats won according to parties for the Election to the Lok Sabha in 1984.

Table 249

This table gives the Statewise expenditure incurred on (i) preparation of electoral rolls and (ii) conduct of election for Election to the Lok Sabha in 1984.

ELECTORAL STATISTICS

Table 247-NUMBER OF SEATS AND CONSTITUENCIES IN THE VIDHAN PARISHADS-Concl'd.
(State Legislative Councils)

C-constituencies : S-Seats, Figures in bracket in column 3 indicate the number of Legislative Councils.

Notes-

(1) Election were conducted from October 1951 to March, 1952 on the basis of the seats allocated under Section 10 and the Third Schedule of the Representation of the People Act, 1950. The Council constituencies were delimited under the Delimitation of Council Constituencies Orders, 1951, as modified by the Parliament.

(2) Seats and Constituencies for Madras were modified under Section 19 of the Andhra State Act, 1953 (30 of 1953) (16-9-1953).

(3) Under Section 19(1)(c) of the Andhra State Act, 1953 w.e.f. 21-4-54, seats for Graduate Constituencies in Madras increased from 4 to 6 and those filled by nomination by the Government reduced from 11 to 9, keeping the total same i.e. 51.

(4) Seats and Constituencies in Madras were modified by the Adoption of Law Order, 1956 (No. 3)

(5) (i) Seats in Mysore were modified under Section 36(3) of the States Reorganisation Act, 1956 (13 of 1956) (31-8-1956) Council constituencies were to be delimited in Mysore under Section 36(4) of the Act by the Election Commission.

(ii) 1956 Total excludes figures for Legislative Council of Madhya Pradesh which was to be constituted from such date as the President may by order appoint having the same number of seats i.e. 72. Such Council has not been constituted.

(iii) Council Constituencies were also to be delimited by the Election Commission for the reorganised States of Bombay, Madhya Pradesh and Punjab.

(6) Seats and Constituencies modified for all States including Madhya Pradesh by the Legislative Council Act, 1957 (37 of 1957) (3-12-1957).

(7) (i) 1958 Total excludes figures for Madhya Pradesh, where Legislative Council has not yet been constituted.

(ii) Reference date to administrative Units in Madhya Pradesh changed to 1-10-1959 vide Section 5 and Schedule of the Rajasthan and Madhya Pradesh (Transfer of Territories) Act, 1959 (47 of 1959).

(8) Seats and Constituencies for Maharashtra modified by Section 22 and Schedule v of the Bombay Reorganisation Act, 1960 (11 of 1960) (1-5-1960).

(9) Constituencies modified by the Delimitation of Council Constituencies Amendment Order, 1961 for Andhra Pradesh (GSR-1181), Bihar (GSR-1182), Maharashtra (GSR-1183) and West-Bengal (GSR-1184).

(10) Constituencies modified by the Delimitation of Council Constituencies Amendment Order, 1961 for Madras (GSR-7), Mysore (GSR-588) and Punjab (GSR-569).

(11) Constituencies modified by the Delimitation of Council Constituencies (Uttar Pradesh) Amendment Order 1961 (GSR-1273).

(12) Reference date to administrative units changed to 1-4-1965 on 25-7-1965 for Andhra Pradesh (GSR-1057), Bihar (GSR-1058), Maharashtra (GSR-1059), Madras (GSR-1060), Mysore (GSR-1061), Punjab (GSR-1062), Uttar Pradesh (GSR-1063) and West Bengal (GSR-1064).

(13) Reference date to administrative units changed to 1-11-1966 in Madras vide GSR-1097 dated 18-7-1966.

(14) Name of Bangalore district substituted as "Bangalore" (Urban) and Bangalore (Rural) district vide GSR-421 dated 5-6-1964.

(15) Seats and Constituencies substituted by Section 20 and 21 of the Punjab Reorganisation Act, 1966 (31 of 1966) of (18-9-1966).

(16) Number of Local Authorities Constituencies increased from 23 to 28 in Uttar Pradesh vide the Delimitation of Council Constituencies (Uttar Pradesh) Amendment Order, 1966-GSR 589 (E) dated 13-1-1966.

(17) Legislative Council of Punjab was abolished by Section 5 of the Punjab Legislative Council (Abolition) Act 1969 (46 of 1969) (w.e.f. 7-1-1970).

(18) Legislative Council of West Bengal was abolished by Section 5 of the West Bengal Legislative Council (Abolition) Act, 1969 (20 of 1969) (w.e.f. 1-8-1969).

(19) Figures for 1970 and 1972 excludes figures for the Legislative Councils of Punjab and West Bengal which were abolished on 7-1-1970 and 1-8-1969 respectively.

(20) Reference to administrative units changed to 1-10-1971 in Bihar vide GSR(E) dated 30-12-1972.

(21) The names of "North Satara and South Satara district" in Maharashtra changed to "Satara and Sangli" "Satara and Sangli" vide GSR 1821 dated 22-10-1970.

(22) The name of "Madras" changed to "Tamil Nadu" on 14-1-1969 vide GSR-112 dated 13-1-1970.

(23) Reference date administrative units changed to 1-4-1970 for Uttar Pradesh vide GSR-968 dated 25-6-1970.

(24) Number of Local Authorities Constituencies in Andhra Pradesh increased from 20 to 21 vide Delimitation of Council Constituencies Andhra Pradesh) Amendment Order, 1973.

(25) Number of Teachers Constituencies in Maharashtra were increased from 2 to 3 vide the Delimitation of Council Constituencies (Bombay) (Amendment) Order, 1974-GSR 249 (E) dated 29-5-1974.

(26) Reference to reorganised district in Bihar as on 1-8-1975 incorporated vide the Delimitation of Council Constituencies (Bihar) Amendment Order, 1975 GSR 494 (E) dated 16-9-1975.

(27) The name of "Mysore" changed to "Karnataka" vide GSR-431 (E) dated 21-10-1974.

(28) Number of Teachers Constituencies were increased in Maharashtra from 3 to 4 vide the Delimitation Council Constituencies (Bombay) Amendment Order, 1975 vide GSR-589(E) dated 27-12-75.

(29) Reference to reorganisation district as 1-2-1974 made vide GSR-114(E) dated 2-3-1974.

(30) Reference to reorganised Divisions or districts as on 1-4-1970 made vide GSR-968, DATED 26-6-1974.

NOTE-Totals may not tally due to rounding off of figures.

The Figures for Bihar and Maharashtra are not yet available. The total expenditure shown against these two states are in budget provisions..

FIVE YEAR PLANS

Table 250

Plan Outlay/Expenditure for Public Sector: Tables 250 A & B present figures of plan provision and outlay for first, second, third, fourth, fifth, and sixth plan periods and also during the annual plans 1966-69, 1978-1980 and 1984-85. Tables 250 C, D and E provide the corresponding State-wise figures for the seventh plan and 1984-85 & 1983-84.

Plan outlay: It is the allocation of estimated resources to programme/projects/schemes included in different Annual/Five year plans.

Anticipated expenditure: It is expenditure anticipated to be incurred in the year assumed on the basis of the performance of first half of year or so.

Table 251

It presents targets as well as achievements during first, second, third, fourth, fifth plan, annual plan 1978-80 & for sixth plan for about 85 items under the major heads (i) agricultural production; (ii) forests and soil conservation; (iii) community development; (iv) irrigation by crops (v) power; (vi) mining; (vii) industrial production; (viii) mechanical, electrical engineering and chemical and allied industries; (ix) timber and food industries; (x) transport & communication (xi) ports and harbours; (xii) post and telegraphs; (xiii) social services (education); and (xiv) health.

Data for number of towns and villages electrified-item 28-relate to cumulative achievements upto the end of the period. The population-wise break-up of electrified towns and villages and other figures have been estimated wherever actual figures are not available.

The data for electrified villages for Tamil Nadu upto 31-3-1961 is as per 1951 Census and therefore the population-wise break-up for all periods upto March 1961 is estimated.

29. Irrigation pumpsets/tube-wells, energised	Nos.	21,008	-	56,053	-	198,894	-
Mining							
30. Coal (Including lignite)	lakh tonnes	328	396	399	610	555	986
31. Iron ore (2)	lakh tonnes	31	41	44	127	110	325
32. Manganese ore (3)	lakh tonnes	9	-	16	20	14	20
33. Limestone (3)	lakh tonnes	29	-	75	237	129	303
34. Gypsum	lakh tonnes	2	-	7	20	10	21
35. Bauxite	'000 tonnes	65	-	91.0	178.0	387	457

NOTE- A dash(-) indicates that target was not fixed.

1. The achievement figures are not actual achievement during the plan periods, but refer to the cumulative achievement upto the end of March of the concerned fiscal year.

2. Exclude production in Goa upto 1969-70

3. Figures refer to calendar year.

(a) Relate to calendar year 1950.

(b) Relate to calendar year 1955.
